

An aerial photograph of a frozen body of water, likely in the Arctic or Antarctic. A small, dark boat is visible on the left, partially submerged in a pool of water. A large, dark, irregularly shaped ice floe is on the right. The surrounding ice is a mix of light and dark patches, suggesting different textures or perhaps snow cover. The overall scene is desolate and cold.

## Stories Of The Far North Bison:

*The Stories from Canada's Frontier* Julian Ralph, 2022-01-04 On Canada's Frontier is an autobiographical sketch by Julian Ralph. The book is based on author's experiences from his journeys to West Canada. This book is composed of series of papers which recorded journeys and studies author made in Canada during the three years he stayed there. The author brings many interesting stories of adventures of Indigenous people of Canada, missionaries, fur traders and settlers to this territory. Contents: Titled: Pioneers, Chartering a Nation, A Famous Missionary, Antoine's Moose yard, Big Fishing, A Skin for a Skin, Talking Musquash, Canada's El Dorado, Dan Dunn's Outfit. The Hunting of the Buffalo E. Douglas Branch, 1997-01-01 The Hunting of the Buffalo originally published in 1929 tells all about the marvelous and useful animal that once roamed the American plains. Its gradual extermination is chronicled by E. Douglas Branch who drew on rich materials including Indian legends, old letters and diaries and tales of frontier travelers. No one has ever written more memorably about the great herds, their habits and haunts, their importance to the Indians, their discovery by awed whites, their decimation by huge cultural and economic forces. *The Wild North Land: Being the Story of a Winter Journey, with Dogs, Across Northern North America ... With Illustrations [including a Portrait] and Route Map* William Francis Butler, 1873 **American Myths, Legends, and Tall Tales** Christopher R. Fee, Jeffrey B. Webb, 2016-08-29 A fascinating survey of the entire history of tall tales, folklore and mythology in the United States from earliest times to the present, including stories and myths from the modern era that have become an essential part of contemporary popular culture. Folklore has been a part of American culture for as long as humans have inhabited North America and increasingly formed an intrinsic part of American culture as diverse peoples from Europe, Africa, Asia and Oceania arrived. In modern times, folklore and tall tales experienced a rejuvenation with the emergence of urban legends and the growing popularity of science fiction and conspiracy theories with mass media such as comic books, television and films contributing to the retelling of old myths. This multi-volume encyclopedia will teach readers the central myths and legends that have formed American culture since its earliest years of settlement. Its entries provide a fascinating glimpse into the collective American imagination over the past 400 years through the stories that have shaped it. Organized alphabetically, the coverage includes Native American creation myths, tall tales like George Washington chopping down his father's cherry tree and the adventures of King of the Wild Frontier Davy Crockett through to today's urban myths. Each entry explains the myth or legend and its importance and provides detailed information about the people and events involved. Each entry also includes a short bibliography that will direct students or interested general readers toward other sources for further investigation. Special attention is paid to African American folklore, Asian American folklore and the folklore of other traditions that are often overlooked or marginalized in other studies of the topic. *Frozen Fauna of the Mammoth Steppe* R. Dale Guthrie, 2013-11-01 Frozen mammals of the Ice Age preserved for millennia in the tundra have been a source of fascination and mystery since their first discovery over two centuries ago. These mummies, their ecology and their preservation are the subject of this compelling book by paleontologist Dale Guthrie. The 1979 find of a frozen extinct steppe bison in an Alaskan gold mine allowed him to undertake the first scientific excavation of an Ice Age mummy in North America and to test theories about these enigmatic frozen fauna. The 36 000 year old bison mummy coated with blue mineral crystals was dubbed Blue Babe. Guthrie conveys the excitement of its excavation and shows how he made use of evidence from living animals, other Pleistocene mummies, Paleolithic art and geological data. With photographs and scores of detailed drawings, he takes the reader through the excavation and subsequent detective work analyzing the animal's carcass and its surroundings, the circumstances of its death, its appearance in life, the landscape it inhabited and the processes of preservation by freezing. His examination shows that Blue Babe died in early winter, falling prey to lions that inhabited the Arctic during the Pleistocene era. Guthrie uses information gleaned from his study of Blue Babe to provide a broad picture of bison evolutionary history and ecology, including speculations on the interactions of bison and Ice Age peoples. His description of the Mammoth Steppe as a cold, dry, grassy plain is based on an entirely new way of reading the fossil record.

**The Story of Nelson** W.H.G. Kingston, 2025-05-07 The Story of Nelson by W. H. G. Kingston is an engaging and vivid biography that captures the remarkable life of one of Britain's most celebrated naval heroes, Admiral Lord Nelson. From his early years at sea to his heroic exploits in some of history's most significant naval battles, Kingston weaves a narrative that not only chronicles Nelson's achievements but also delves into the character and essence of a man who became a symbol of courage and determination in the face of adversity. This thrilling account begins with Nelson's childhood in Norfolk, where his passion for the sea was ignited at a young age. Kingston vividly describes how Nelson's career began at the Royal Navy, leading him through an array of challenges and adventures that would soon mold him into a formidable naval commander. As readers journey through Nelson's life, they will witness his evolution from a young officer to an eminent leader known for his innovative tactics and strategic brilliance. The narrative reaches its climax with an in-depth exploration of the Battle of Trafalgar, where Nelson's tactical genius turned the tide of British naval fortunes against the formidable combined fleets of France and Spain. Kingston's vivid descriptions place readers on the decks of the warships, capturing the intensity and drama of naval combat during the Age of Sail. Here, Nelson's leadership and inspiration rallied his men, showcasing not just his military prowess but also the profound bond he shared with his crew. Kingston does not shy away from portraying the personal aspects of Nelson's life, delving into his relationships, including his enduring love for Emma and his struggles with health and leadership burdens. This humanizes the legendary figure, allowing readers to connect with him on a personal level, understanding the sacrifices he made and the challenges he faced both in battle and in his personal life. In addition to

recounting breathtaking naval action The Story of Nelson also examines the broader implications of Nelson's victories and how they shaped British naval history and national identity Kingston highlights how Nelson's legacy extends beyond his military achievements influencing generations of naval officers and inspiring countless stories and representations in literature and popular culture Through rich captivating prose W H G Kingston brings to life the heroic journey of Admiral Lord Nelson inviting readers to reflect on themes of bravery leadership and sacrifice Whether you are a maritime history enthusiast a student of military strategy or simply drawn to stories of extraordinary individuals this book provides a comprehensive and moving portrayal of one of Britain's greatest naval heroes *The Geological Story of the Great Plains*

Donald E. Trimble,1980 **People of the Bear Mother** T. D. Austin,2012-08 The most powerful shaman of the People of the Bear Mother invites a young woman to take her soul's great adventure by painting a new piece of animal art on the walls in the deepest chambers of the awesome Great Cave The time has come for Little Bear to make the life altering choice to overcome her fear of the terrifying old shaman and in doing so unalterably change all the lives her soul will subsequently experience even as her lion eye reappears in each lifetime to identify her avatar But before she may embark on her hero's journey she must be initiated as hunter and then as Seer through trials ordeals and the revelations of her people's mythology expressed in the art of the Cave The tale builds to an unexpected climax as one soul experiences many lifetimes in a hunting culture where being born female or male homosexual or heterosexual young or old are equally valid ways of being human Inspired by the work of Joseph Campbell and the artwork of France's 35 000 yearold Chauvet Cave the novel takes a fresh look at and is a new take on the life ways and religion of our earliest ancestors through Little Bear's encounters with shamans hunters avatars and painted caves This story reveals that the spiritual messages hidden within this magnificent incredibly ancient art are the same metaphysical beliefs of the New Age and the same universal human truths at the heart of every world religion and mystical philosophy 2011 Book Competition Finalist Awards USA Best Book Awards for New Age Fiction IBA for Chick Lit Women's Fiction IBA for Gay Lesbian Fiction Rethinking Wilderness Mark Woods,2017-07-13

The concept and values of wilderness along with the practice of wilderness preservation have been under attack for the past several decades In *Rethinking Wilderness* Mark Woods responds to seven prominent anti wilderness arguments Woods offers a rethinking of the received concept of wilderness developing a positive account of wilderness as a significant location for the other than human value adding properties of naturalness wildness and freedom Interdisciplinary in approach the book combines environmental philosophy environmental history environmental social sciences the science of ecology and the science of conservation biology *Western American Literature* ,1998 *The Pageant of America: The lure of the frontier, a story of race conflict*, by R.H. Gabriel Ralph Henry Gabriel,1929 From Treaties to Reserves D.J. Hall,2015-11-01 Though some believe that the Indian treaties of the 1870s achieved a unity of purpose between the Canadian government and First Nations in *From Treaties to Reserves* D J Hall asserts that as a result of profound cultural differences each side interpreted

the negotiations differently leading to conflict and an acute sense of betrayal when neither group accomplished what the other had asked Hall explores the original intentions behind the government's policies illustrates their attempts at cooperation and clarifies their actions While the government believed that the Aboriginal peoples of what is now southern and central Alberta desired rapid change the First Nations in contrast believed that the government was committed to supporting the preservation of their culture while they adapted to change Government policies intended to motivate backfired leading instead to poverty starvation and cultural restriction Many policies were also culturally insensitive revealing misconceptions of Aboriginal people as lazy and over dependent on government rations Yet the first two decades of reserve life still witnessed most First Nations people participating in reserve economies many of the first generation of reserve born children graduated from schools with some improved ability to cope with reserve life and there was also more positive cooperation between government and First Nations people than is commonly acknowledged The Indian treaties of the 1870s meant very different things to government officials and First Nations Rethinking the interaction between the two groups From Treaties to Reserves elucidates the complexities of this relationship
