Supporting Korean American Children in Early Childhood Education Sophia Han, Jinhee Kim, Sohyun Meacham, Su-Jeong Wee, 2023-11-24 Early childhood professionals can use this one of a kind work to better serve Korean American children in the United States. Four transnational mother educators share the lived experiences of Korean American children and their families through candid and vivid narratives that counter stereotypical and prejudicial beliefs about Asian American communities. Topics include parenting beliefs and practices, naming practices, portrayals in children's picturebooks, translingual home practices, and responses to microaggressions. The text raises awareness about various dynamics within the Korean American community for a more nuanced discourse. The authors bring a wealth of hybrid positioning and experiences as former early childhood educators, first generation Korean American immigrants, current teacher educators working with pre and inservice teachers, and researchers in different states, as well as mothers of second generation Korean American children. Book Features: Shares original stories and experiences of Korean American children and families to dismantle prevalent narrow narratives. Offers practical implications and considerations for classroom teachers regarding family engagement, critical literacy, translanguaging, and social emotional learning. Includes user friendly features such as discussion questions, lesson ideas, and a list of appropriate picturebooks.

Children's Literature Hannah Nuba, Michael Searson, Deborah Lovitky Sheiman, 2013-09-13 This chronological guide to the developmental stages and corresponding literary needs and preferences of early childhood is the unique result of combining the expertise of educational professionals with that of a children's librarian. Each chapter describes a developmental stage of childhood and presents appropriate books for that reading level, providing expert guidance in today's crowded children's book market.

Mathematizing Children's Literature Allison Hintz, Antony T. Smith, 2023-10-10 Many teachers use traditional counting and shape books in math class. But what would happen if we approached any story with a math lens? How might mathematizing children's literature give learners space to ask their own questions and make connections between stories, their lives, and the world around them? These are the questions authors Allison Hintz and Antony T. Smith set out to explore in *Mathematizing Children's Literature: Sparking Connections*. Joy
