**Stories From the Heart** Richard J. Meyer, 2013-10-18 *Stories from the Heart* is for by and about prospective and practicing teachers understanding themselves as curious and literate beings making connections with colleagues and researching their own literacy and the literacy lives of their students. It demonstrates the power and importance of story in our own lives as literate individuals. Readers are encouraged to tell, write or re-create the stories of their literacy lives in order to understand how they learn and teach. It begins the journey into writing the stories of others. Literacy lives find support in their researching endeavors and examine the idea of framing stories by using the work of other teachers and researchers.

**Stories from the Heart** Marti Tamm Loring, 1997 Perhaps because the symptoms of emotional abuse are less visible to the untrained eye than those of physical abuse, society has traditionally focused its attention on the latter. While both forms of abuse are devastating, it is widely believed that emotional abuse is the more destructive. In *Stories from the Heart*, Marti Loring seeks to illustrate this belief by presenting case studies of emotional abuse victims. Through intervention and support, these victims have progressed from a life of utter despair and the overwhelming burden of victimhood to one where they are equipped with the ability to survive. Intervention, therapy, counseling, and advocacy are all methods highlighted in this volume to capture the range of innovative procedures and community resources that are available for those in need. Particular emphasis is placed on the reconnection process, a strategy integral to progressing from victim to survivor of emotional abuse.
