Democratization and Memories of Violence Mneesha

Gellman, 2016-08-05 Ethnic minority communities make claims for cultural rights from states in different ways depending on how governments include them in policies and practices of accommodation or assimilation However institutional explanations don't tell the whole story as individuals and communities also protest using emotionally compelling narratives about past wrongs to justify their claims for new rights protections Democratization and Memories of Violence Ethnic minority rights

movements in Mexico Turkey and El Salvador examines how ethnic minority communities use memories of state and paramilitary violence to shame states into cooperating with minority cultural agendas such as the right to mother tongue education Shaming and claiming is a social movement tactic that binds historic violence to contemporary citizenship Combining theory with empirics the book accounts for how democratization shapes citizen experiences of interest representation and how memorialization processes challenge state regimes of forgetting at local state and international levels Democratization and Memories of Violence draws on six case studies in Mexico Turkey and El Salvador to show how memory based narratives serve as emotionally salient leverage for marginalized communities to facilitate state consideration of minority rights agendas This book will be of interest to postgraduates and researchers in comparative politics development studies sociology international studies peace and conflict studies and area studies Identity and Violence in Early Modern Granada Tanja Zakrzewski,2023-04-15 In Identity and Violence in Early Modern Granada Conversos and Moriscos Tanja Zakrzewski argues that Conversos and Moriscos despite being distinct sociocultural groups within Spanish society still employed the same arguments and rhetorical strategies to establish and defend their place within society Both Conversos and Moriscos relied on contemporary notions of honour authority and loyalty to emphasize that they are true Spaniards not despite their New Christian heritage but because of it This book offers an entangled narrative of their history and examines how their notions of honour and hispanidad shaped their socio cultural identities during the time of the socio cultural identities during the time of the Alpujarras Rebellion **A New Philosophy of Society** Manuel DeLanda,2019-04-18 In A New Philosophy of Society Manuel DeLanda offers a fascinating look at how the contemporary world is characterized by an extraordinary social complexity Since most social entities from small communities to large nation states would disappear altogether if our cognitive abilities ceased to exist DeLanda proposes a novel approach to social ontology that asserts the autonomy of social entities from the conceptions we have of them He argues that Gilles Deleuze s theory of assemblages provides a framework in which sociologists and geographers studying social networks and regions can properly locate their work and fully elucidate the connections between them Indeed assemblage theory as DeLanda argues can be used to model any community from interpersonal networks and institutional organizations to central governments cities and nation states

Understanding Terrorism in the Age of Global Media C. Archetti,2015-12-11 We cannot truly understand let alone counter terrorism in the 21st century unless we also understand the processes of communication that underpin it This book challenges what we know about terrorism showing that current approaches are inadequate and outdated and develops a new communication model to understand terrorism in the media age **The Palgrave Handbook of Global Political Psychology** H. about motherhood today Mothers Who Deliver focuses on forward looking arguments and new forms of knowledge about the practice of mothering instead of remaining solely within the realm of critique Together the essays create a compelling argument about the possibilities of empowered mothering Forging Political Identity Keith Mann,2010-04-01 Escaping the traditional focus on Paris the author examines the divergent political identities of two occupational groups in Lyon metal and silk workers who despite having lived and worked in the same city developed different patterns of political practices and bore distinct political identities This book also examines in detail the way that gender relations influenced industrial change skill and political identity Combining empirical data collected in French archives with social science theory and methods this study argues that political identities were shaped by the intersection of the prevailing political climate with the social relations surrounding work in specific industrial settings **Fifty Key Sociologists: The Contemporary Theorists** John Scott,2007-01-24 Fifty Key Sociologists The Contemporary Theorists covers the life work ideas and impact of some of the most important thinkers in this discipline Concentrating on figures writing predominantly in the second half of the twentieth century such as Zygmunt Bauman Pierre Bourdieu Judith Butler Michel Foucault and Claude L vi Strauss each entry includes full cross referencing a further reading section biographical data key works and ideas critical assessment Clearly presented in an easy to navigate A Z format this accessible reference guide is ideal for undergraduate and postgraduate students of sociology cultural studies and general studies as well as other readers interested in this fascinating field **Symbolic Interactions** Regina Hewitt,2006 Regina Hewitt enlists analogies between the symbolic interactions prompted by the selected writers and the concepts of symbolic interaction still evolving from the sociology of Jane Addams George Herbert Mead and others These practitioners recover a belief in the social efficacy of literature that was accepted during the predisciplinary Romantic Era but contested throughout much of the twentieth century Hewitt s revisionist readings advocate the renewal of literary interventionism in our post disciplinary age and demonstrate the active involvement of Baillie Scott and Landor in contemporary social and legal reform **BOOK JACKET Ethnic Struggle, Coexistence, and Democratization in Eastern Europe** Sherrill Stroschein,2012-05-28 In societies divided on ethnic and religious lines problems of democracy are magnified particularly where groups are mobilized into parties With the principle of majority rule minorities should be less willing to endorse democratic institutions where their parties persistently lose elections While such problems should also hamper transitions to democracy several diverse Eastern European states have formed democracies even under these conditions In this book Sherrill Stroschein argues that sustained protest and contention by ethnic Hungarians in Romania and Slovakia brought concessions on policies that they could not achieve through the ballot box in contrast to Transcarpathia Ukraine In Romania and Slovakia contention during the 1990s made each group accustomed to each other s claims and aware of the degree to which each could push its own Ethnic contention became a de facto deliberative process that fostered a moderation of group stances allowing democratic consolidation to slowly and organically

take root State, Religion, and Revolution in Iran, 1796 to the Present B. Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi'ism is an integral part of Iran's religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves *The Other '68ers* Anna Von der Goltz, 2021 This is a history of 1968 written from a new perspective that of center right student activists in West Germany Based on oral history interviews and new archival sources it examines the ideas experiences and repertoires of center right students in this age of protest Writing these activists back into the history of 1968 and its afterlives including student protest cultural revolt internationalism debates about left wing violence and the terror of the Red Army Faction the memory wars of the 1980s and beyond reveals that this was a broader more versatile and ultimately more consequential phenomenon than the traditionally narrower focus on a left wing minority allows *Other '68ers* demonstrates that we need a more nuanced history of the 1968 generation and of generational conflict during these years Student activists comprised individuals from across the political spectrum who often had very different ideas about what kind of a society they envisaged and how to address the shortcomings of West German democracy 1968 was a moment of intense political conflict but it also played out within the student body and nurtured contrasting identities This book shows that the center right involvement in 1968 had real consequences Many of the protagonists of this book would go on to pursue high profile political careers and leave their mark on West German political culture *Other '68ers* therefore sheds fresh light on how West Germany's center right dealt with the crisis of hegemony and political identity it experienced in the wake of 1968 how it coped with generational change how it transformed and modernized after losing power at the national level for the first time in 1969 and how it managed to re-emerge so successfully in the 1980s *Stories of Civil War in El Salvador* Erik Ching, 2016-08-26 El Salvador's civil war began in 1980 and ended twelve bloody years later It saw extreme violence on both sides including the terrorizing and targeting of civilians by death squads recruitment of child soldiers and the death and disappearance of more than 75 000 people Examining El Salvador's vibrant life story literature written in the aftermath of this terrible conflict including memoirs and testimonials Erik Ching seeks to understand how the war has come to be remembered and rebattled by Salvadorans and what that means for their society today Ching identifies four memory communities that dominate national postwar views civilian elites military officers guerrilla commanders and working class and poor testimonialists Pushing distinct and divergent stories these groups are today engaged in what Ching terms a narrative battle for control over the memory of the war Their ongoing publications in the marketplace of ideas tend to direct Salvadorans' attempts to negotiate the war's

meaning and legacy and Ching suggests that a more open coordinated reconciliation process is needed in this postconflict society In the meantime El Salvador fractured by conflicting interpretations of its national trauma is hindered in dealing with the immediate problems posed by the nexus of neoliberalism gang violence and outmigration
