Stories Of China At War:

Stories of China at War Chi-Chen Wang, 1947 *Stories of China at War. Edited by Chi-Chen Wang* Jichen Wang, 1947

China at War Hans van de Ven, 2018-02-12 China's mid twentieth century wars pose extraordinary interpretive challenges. The issue is not just that the Chinese fought for such a long time from the Marco Polo Bridge Incident of July 1937 until the close of the Korean War in 1953 across such vast territory. As Hans van de Ven explains, the greatest puzzles lie in understanding China's simultaneous external and internal wars. Much is at stake politically in how this story is told. Today in its official history and public commemorations, the People's Republic asserts Chinese unity against Japan during World War II. But this overwrites the era's stark divisions between Communists and Nationalists, increasingly erasing the civil war from memory. Van de Ven argues that the war with Japan, the civil war, and its aftermath were in fact of a piece, a singular process of conflict and political change. Reintegrating the Communist uprising with the Sino-Japanese War, he shows how the Communists took advantage of wartime to increase their appeal, how fissures between the Nationalists and Communists affected anti-Japanese resistance, and how the fractious coalition fostered conditions for revolution. In the process, the Chinese invented an influential paradigm of war wherein the Clausewitzian model of total war between well-defined interstate enemies gave way to murky campaigns of national liberation involving diverse domestic and outside belligerents. This history disappears when the realities of China's mid-century conflicts are stripped from public view. *China at War* recovers them.

Escape from Namka Chu: A Love Story Based on India-China War 1962, 2015-07-15 This book is a fiction love story focussing on the privations suffered by the protagonists as a fallout of the India-China conflict of 1962. All characters and names are fictitious and imaginary, and any semblance to the living or dead is purely incidental. It is not a true narration of the conflict, which is merely a means for the main protagonists to ride on till the conclusion of the story. **China at War**

Since World War II: A Brief History Chi Wang, 2014-12-18 This book surveys the complicated history of U.S.-Chinese relations. After two brief chapters providing historical context, the focus shifts to the mid twentieth century: the wartime alliance, the war's bitter aftermath, and the decades since World War II, including the path from normalisation to China's hosting of the 2008 Summer Olympics. The author traces the ways in which the two countries have managed the blend of common and competitive interests in their economic and strategic relationships, the shifting political base for Sino-American relations within each country, the emergence and dissolution of rival political coalitions supporting and opposing the relationship, the evolution of each society's perceptions of the other, and ongoing differences regarding controversial topics like Taiwan and human rights. The author's early years in China, American education, and career as a China expert and an advisor on U.S.-China relations and cultural affairs for over fifty years have afforded him unique opportunities to observe and

interests Some critics have suggested that China would have been better off if the KMT had won the civil war instead of the CCP Others have insisted that the party is hopelessly weak on issues of national importance and that China is no stronger now than it was during the final throes of the much hated Qing Dynasty This book will be of interest to research students and scholars of Chinese politics history and international relations

War and Revolution in South China Edward J. M.

Rhoads,2021-09-10 In *War and Revolution in South China* Edward Rhoads recounts his childhood and early teenage years during the Sino Japanese War and the early postwar years Rhoads came from a biracial family His father was an American professor while his Chinese mother was a typist and stenographer In the late 1930s and the 1940s the Rhoads family lived through the turbulent years in southern China and Hong Kong The book follows Rhoads childhood in Guangzhou his family's evacuation to Hong Kong his father's internment and repatriation to the United States and his and his mother's flight to Free China He recalls his reunion with family members in northern Guangdong Province in 1943 their retreat to China's wartime capital of Chongqing where his father worked for the American government and how they returned to Guangzhou after the war The Rhoads family then witnessed the socioeconomic recovery in the city and the regime change in 1949 The book ends with their departure from China to the United States in 1951 a year and a half after the Communist revolution The book fills an important gap in the scholarship by examining the impact of the Sino Japanese War in southern China from the perspective of one family Rhoads reveals that the war in this region while often neglected by scholars was in fact no less turbulent than it was in northern and central China He combines autobiography with serious historical research to reconstruct the lives of his family consulting a large number of archival documents private correspondence and scholarly literature to produce a rare study that is both scholarly and accessible This book is a very timely reminder that one should look at the experience of China during the Second Sino Japanese War and the Second World War from a regional perspective in order to understand the diverse historical experience of the people from different geographical ethnic cultural and social backgrounds Chi man Kwong Hong Kong Baptist University A pleasure to read and of compelling interest Edward Rhoads book explores the more benign side of the foreign influence in modern China the introduction of modern educational institutions The intriguing lens through which we look is his biracial family their multiple flights across southern China as refugees escaping war and their eventual expulsion from China Stephen Davies The University of Hong Kong

China at War Hans van de Ven,2017-08-24 China's War of Resistance against Japan as WWII is known in China was never about the defeat of Japan alone China was also at war with itself Between 1937 and 1949 a vicious revolutionary war between Nationalists and Communists divided by radically different views about China's future ravaged the country killing millions and laying waste to cities and the countryside The outcomes of these wars have shaped the country and the world since China at War focuses on this period examining the complex truth behind the propaganda of both East and West Cambridge professor Hans van de Ven shows how the results of the fighting ended European imperialism in East Asia restored China to

its traditional position of regional centrality and gave the USA a decisive role in East Asian politics In the process he argues it also triggered profound changes in warfare as important as the development of atomic weapons and gave the countryside a new social political and military significance Through fascinating personal accounts and extensive scholarship China at War casts new light on this crucial period of history and harnesses contemporary art culture and ideology to illuminate world changing events

India and the China Crisis Steven A. Hoffmann, 2024-06-12 The earliest accounts of the Sino Indian boundary dispute cast India as the victim of Chinese betrayal and expansionism but a more favorable image of China vis a vis India has appeared since the 1970s Since then China has been portrayed as the victim of India's self righteous intransigence with the 1962 India China war occurring because China was provoked into practicing a justifiable form of realpolitik These two seemingly irreconcilable academic schools of thought still exist In this case study of India's decision making between the years of 1959 and 1963 the critical first years of its border conflict with China Steven A Hoffmann takes an important step in reconciling the conflicting views of the crisis and of the ascribed reasons for the war that ensued in 1962 Drawing on interviews with Indian officials military officers and political leaders and on memoirs and other sources gathered during concentrated research in India England and North America between 1983 and 1986 the author provides previously unknown material on the perceptions and realities of Indian decision making A model for international crisis behavior as proposed by Michael Brecher is used to help establish a balanced treatment of information and offer insights into such questions as why India and China both failed to understand one another's frontier psychologies and strategies and why the Nehru government did not succeed in managing the conflict This richly detailed and carefully researched approach is invaluable in this time when India and China are once again exploring ways to establish a solid relationship This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990
