*Stories of Great Painters* Edwin Wilbur Rice, 1887      **Stories of Great Painters Or Religion in Art** Edwin W. Rice, 2014-03 This Is A New Release Of The Original 1887 Edition      Stories of Art and Artists Clara Erskine Clement Waters, 1886      Life Stories of Women Artists, 1550-1800 Julia K. Dabbs, 2020-08-18 The struggles and achievements of forty six notable women artists of the early modern period as documented by their contemporaries are uniquely brought together in this anthology The life stories presented here are foundational texts for the history of art but since most are found only in rare volumes and few have been translated into English until now they have been generally inaccessible to many scholars Originally published in biographical compendia such as Vasari's *Lives of the Artists* the writings included here document not only the lives of relatively well known women artists such as Artemisia Gentileschi and Sofonisba Anguissola but also those who have languished in obscurity like Anna Waser and Li Yin Each life story is preceded by a brief introduction to the artist as well as to her biographer and the texts themselves are annotated to provide necessary clarification Beyond their documentary value these stories provide fascinating insight as to how men commonly characterized women artists as exceptions to their sex and attempted to explain their presence in the male dominated realm of art The introductory chapter to the book explores this intriguing gender dynamic and elucidates some of the strategies and historical context that factored into the composition of these lives The volume includes an appended index to women artists life stories in biographical compendia of the period      **A Story Of Artists** Andros, 2018-11-11 Whereas much has been written on the subject of art the literature on the figure of the artist has been relatively scant There are certainly countless biographies as well as essays dedicated to particular aspects of art for example the relationship between artists and their patrons but there is no comprehensive text that puts together the pieces of the puzzle showing how the figure of the artist changed over the millennia An Artist's Story of Artists is an attempt to make good this lacuna by retracing the long and often fragmented path of the artist from the Palaeolithic until this morning more or less During this journey artists assumed and shed many guises They were magicians priests legends slaves salaried workers entrepreneurs inventors lunatics revolutionaries scientists patrons and much else besides They experimented with techniques and ideas always aiming to find new ways to make art and overcoming the boundaries determined by society as well as those established by themselves Highlights of this story are the complex relationships artists have always had with writing and literature philosophy technology politics religion and criticism and the weighty stigma on manual work that for 5 000 years subdued them as they were regarded as halfwits who were good with their hands This substantial work is divided into five phases five great periods that witnessed the radical ways in which artists changed as they fought and lost battles among themselves and with society and the ups and downs they experienced from being revered shamans reduced to reviled labourers later raised to geniuses and then turned into doomed and damned artists This book examines the role played by optical instruments the reasons behind the origins of exhibitions the paradoxes

of art education the clichés affecting artists and the influences and interferences that have made them what they are today. The book finally examines **"Life Stories of Women Artists, 1550-1800"** Julia K. Dabbs, 2017-07-05. The struggles and achievements of forty-six notable women artists of the early modern period as documented by their contemporaries are uniquely brought together in this anthology. The life stories presented here are foundational texts for the history of art but since most are found only in rare volumes and few have been translated into English until now they have been generally inaccessible to many scholars. Originally published in biographical compendia such as Vasari's *Lives of the Artists*, the writings included here document not only the lives of relatively well-known women artists such as Artemisia Gentileschi and Sofonisba Anguissola but also those who have languished in obscurity like Anna Waser and Li Yin. Each life story is preceded by a brief introduction to the artist as well as to her biographer and the texts themselves are annotated to provide necessary clarification. Beyond their documentary value, these stories provide fascinating insight as to how men commonly characterized women artists as exceptions to their sex and attempted to explain their presence in the male-dominated realm of art. The introductory chapter to the book explores this intriguing gender dynamic and elucidates some of the strategies and historical context that factored into the composition of these lives. The volume includes an appended index to women artists' life stories in biographical compendia of the period.
