lies in the advancement of a unique discourse of pedagogy in higher education comprised of multiple contexts Ultimately Pedagogical Peculiarities distinctiveness lies in its articulation of different pedagogical identities These emanate from and are characterised by different teaching and learning environments across different institutions and sectors This in turn serves to illuminate the current contexts and challenges across higher education as they relate and respond to ideology values policy and changes in the organisation of the sector In essence Pedagogical Peculiarities explores what it means to be a contemporary academic Pedagogical Peculiarities is a thoroughly engaging book about the complexities of teaching in higher education today The contributors reject the mantras of best practice and the market in putting together a stimulating series of reflections on what it really means to manage the challenges of working in the modern university Bruce Macfarlane University of Southampton At a time when metrics are in the ascendancy this book provides a welcome interjection offering a collection of unhurried and theoretically rich narrative accounts that explore the distinctiveness of higher education pedagogy Focusing on often overlooked areas of the academy such as veterinary medicine performing arts or the small discipline of medical physics we gain access to a richer understanding of university teaching and teachers that is both intriguing and provocative Saranne Weller London South Bank University The book's methodology which includes dialogue interview case study illustrations and narrative is a welcomed variation from resources written in prose The cultural differences between a U S based reviewer and a primarily U K based text were apparent but were easily clarified Overall this text raises important pedagogical issues for university deans chairs and academic development administrators It also spurs conversations for current or aspiring academics who are rethinking their identity as teacher scholars amidst shifting needs in higher education Reflective Teaching 2018
