The Junior Classics: Stories of courage and heroism William Patten,1912 [COOL, COMPLETELY AWESOME GHOST STORIES](#) C

P Koszalka, **Stories of Vigilant Courage** Adam Hildebrand,2008-08 If you find yourself at the bedside of a child with multiple handicaps and complex medical needs you need to read this book Whether you are a nurse doctor parent or family member health care professional or a personal ally of an individual who is disabled you will benefit from reading the stories in the book and the analysis of issues by the editor It sometimes happens that some people whether a professional or not will be tempted to think of such children as better off dead an extremely dangerous assumption Illness and suffering do not diminish the value of a person s life and no one has the right to decide whether or not a person should live or die This book gives firsthand accounts of the experiences of handicapped children and their families in health care settings Their experiences vary from doctor to doctor nurse to nurse and hospital to hospital The key difference is that some people held a strong belief that every person s life has intrinsic value and that their lives were sacred Yet others measured the value of a life according to external factors such as level of disability impairments and level of suffering whether presumed or real You can guess which people gave better care and which children lived longer and better accordingly In spite of the difficult challenges that handicapped children and their families face as described in these stories this book is a book of hope You will be inspired by the courageous tenacity of parents who literally stood at the bedside of their children often for months and

protected and affirmed the well being of their child This is a book about people who made a difference a difference between life and death **Invisible Faces and Hidden Stories** Cecilia Sem Obeng, Samuel Gyasi Obeng, 2020-11-01 Dealing with narratives of vulnerable populations this book looks at how they deal with dimensions of their social life especially in regards to health It reflects the socio political ecologies like public hostility and stereotyping neglect of their unique health needs their courage to overcome adversity and the love of family and healthcare providers in mitigating their problems American society likes to give the impression that it is listening to the plight of vulnerable populations but the stories in this volume prove otherwise **Young Warriors: Stories of Strength** Tamora Pierce, Josepha Sherman, 2007-12-18 WHAT MAKES A warrior This gutsy collection of 15 original short stories compiled by bestselling author Tamora Pierce and anthologist author Josepha Sherman answers this question with thought heart a lot of variety and an occasional wink Contributors include some of today s most beloved fantasy and sciencefiction authors Tamora Pierce Holly Black Pamela Service Margaret Mahy Bruce Holland Rogers Mike Resnick Brent Hartinger and more *Calling Men out of the Cave* Nigel Mohammed, 2015-12-04 In the time of Saul the people of God were in a small minority in a context of spiritual decline yet Jonathan who had an abusive father courageously called six hundred men who were hiding in caves onto the battlefield The battle shifted for Gods people because of one mans outstanding courage Through the onslaught of secularism humanism and related ideologies the church is viewed by the culture to be irrelevant a bit like these men hiding in caves because of the odds that are against them Is this because men have been under some kind of enchantment Under a spell from the enemy who is inherently intangible and has caused the decline of Western culture from a biblical worldview to individualism whose central idea now is that society can be composed of individuals without a central values system and heritage holding them together To destroy a nation the enemy has tried to dismantle families and thus masculinity and femininity Therefore a historical father absence is ultimately a spiritual battle and must be seen as such Jesus lived in a little platoon of twelve men trained invested in and released them therefore we have a proven model to follow why then have men been in serious decline from the church Mentors and spiritual fathers who know their calling are needed to produce men who will reproduce disciples who in turn will also be mentors and spiritual fathers with courage and vision to restore the broken foundations The foundations have been progressively dismantled but men are called to be the foundation by knowing that as followers of Jesus Christ we are the beloved of God and this can be a catalyst to finding and living our calling to live in His larger story together **We Must Hear All the Stories** Chief Nnamdi A. Ekenna, 2014-07-17 From an innocuous encounter in an airplane to discourses of the enrichment of the only philosophy his own father handed down to him through issues of concern for dereliction of education to building a wholesome and homogeneous community He highlights issues through his own journey through life and the numerous recordation of those he had made and shared in a span of close to two decades blending fun and earnest graveness without being preachy or sanctimonious Drawing from the Desiderata and his favorite prayer Good Morning God he uses an

engaging discourse form to deliver the message that our stories individually and collectively written or unwritten is the culminant of the worlds story In this book he shows that inspiration is not farfetched and that from effecting liveability in our immediate surrounding we can shape our story to effect points of contact and communication that will eventually give the world story the great Story a chance to develop *Indigenous Feminist Gikendaasowin (Knowledge)* Tricia McGuire-Adams, 2020-11-20 This book presents knowledge from Indigenous women who enact decolonization and wellbeing through physical activity In sport physical activity and health disciplines there is a significant need for Indigenous women s theoretical and methodological perspectives While much research is published from a Western perspective on Indigenous peoples health sport and physical activity less is known from Indigenous feminist and community perspectives The chapters therefore inform the broader sociology of sport and Indigenous feminist fields on Indigenous cultural perspectives of physical activity
