Flares of Memory Anita Brostoff, 2002-11-21 In a series of writing workshops at the Holocaust Center of Pittsburgh survivors who were children or teens during World War II assembled to remember the pivotal moments in which their lives were irreparably changed by the Nazis These flares of memory preserve the voices of over forty Jews from throughout Europe who experienced a history that cannot be forgotten Ninety two brief vignettes arranged both chronologically and thematically recreate the disbelief and chaos that ensued as families were separated political rights were abolished and synagogues and Jewish businesses were destroyed Survivors remember the daily humiliation the quiet heroes among their friends and the painful abandonment by neighbors as Jews were restricted to ghettos forced to don yellow stars and loaded like cattle into trains Vivid memories of hunger disease and a daily existence dependent on cruel luck provide penetrating testimonies to the ruthlessness of the Nazi killing machine yet they also bear witness to the resilience and fortitude of individual souls bombarded by evil I don't think that there will be many readers who will be able to put this book down Jerome Chanes National Foundation for Jewish Culture

George Gissing and the Woman Question Christine Huguet, 2016-04-22 Approaching its subject both contextually and comparatively George Gissing and the Woman Question reads Gissing's novels short stories and personal writings as a crux in European fiction's formulations of gender and sexuality The collection places Gissing alongside nineteenth and twentieth century authors as diverse as Paul Bourget Ella Hepworth Dixon May Sinclair and Theodore Dreiser theorizing the ways in which late Victorian sexual difference is challenged explored

and performed in Gissing's work. In addition to analyzing the major novels, essays make a case for Gissing as a significant short story writer and address Gissing's own life and afterlife in ways that avoid biographical mimetics. The contributors also place Gissing's work in relation to discourses of subjectivity and intersubjectivity, identity, public space, class, and labour, especially literary production. Increasingly viewed as a key chronicler of the late Victorian period's various redefinitions of sexual difference, Gissing is here recognized as a sincere, uncompromising chronicler of social change.

This Handbook provides a comprehensive analysis of some of the world's most pressing global development challenges, including how they may be better understood and addressed through innovative practices and approaches to learning and teaching. Featuring 61 contributions from leading and emerging academics and practitioners, this multidisciplinary volume is organized into five thematic parts: exploring changes in global development; financing, ideologies, norms, and partnerships; interrelationships between development, natural environments, and inequality; shifts in critical development challenges; and new possibilities for positive change. Collectively, the handbook demonstrates that global development challenges are becoming increasingly complex and multi-faceted and are to be found in the Global North as much as the South. It draws attention to structural inequality and disadvantage alongside possibilities for positive change. The Handbook will serve as a valuable resource for students and scholars across multiple disciplines, including Development Studies, Anthropology, Geography, Global Studies, Indigenous and Postcolonial Studies, Political Science, and Urban Studies.
