understanding that our technologically mediated condition is a condition of organization It maps and theorizes the largely uncharted territory of media technology and organization studies Written by scholars of organization and theorists of media and technology the chapters focus on specific and specifically mediating objects that shape the practices processes and effects of organization It is in this spirit that each chapter focuses on a specific technological object such as the Battery Clock High Heels Container or Smartphone asking the question how does this object or process organize In staying with the object the chapters remain committed to the everyday empirical world rather than being confined to established disciplinary concerns and theoretical developments As the first sustained and systematic interrogation of the relation between technologies media and organization this Handbook consolidates deepens and further develops the empirics and concepts required to make sense of the material forces of organization     *The UFO Phenomenon and the Origin of Religion, Myth and The Occult* Robert Iturralde,2024-12-09 This book establishes the connection of the Intelligence behind the UFO phenomenon and the supernatural phenomenon historical events every day events religious events Also I demonstrate that the UFO phenomenon is present in human reality with different names sometimes is called miracles and Supernatural events
