global civilization Climate of the Soul Andrew D. Mayes,2022-05-17 This book bears us on eagles wings into the vault of
the heavens and plunges us into the hidden depths of the soul As the climate crisis alerts us to the state of the planet so we
look into our soul We see how the Bible and classic spiritual writers use arresting meteorological imagery to describe both
the discovery of the Divine and the condition of humanity We explore a rich and diverse vocabulary archetypal universal and
primal enabling us to describe the movements of the soul These images and metaphors help us express what is going on in
our spiritual lives as we learn the skill of reading the climate of our soul Attentiveness to the ecology of the soul leads to a
sharper perception of the environmental issues facing our planet This book helps us to look differently at our turbulent world
within the interplay of microcosm of soul and macrocosm of climate celebrating a sacramental approach to the universe to
the elements and to ourselves **The Soul's Ascent** Frederick Brotherton Meyer,1904
