Beyond hegemony Darrow Schechter, 2013-07-19 Since the Enlightenment liberal democrat governments in Europe and North America have been compelled to secure the legitimacy of their authority by constructing rational states whose rationality is based on modern forms of law The first serious challenge to liberal democratic practices of legal legitimacy comes in Marx's early writings on Rousseau and Hegel Marx discovers the limits of formal legal equality that does not address substantive relations of inequality in the workplace and in many other spheres of social life *Beyond Hegemony* investigates the authoritarianism and breakdown of those state socialist governments in Russia and elsewhere which claim to put Marx's ideas on democracy and equality into practice The book explains that although many aspects of Marx's critique are still valid today his ideas need to be supplemented by the contributions to social theory made by Nietzsche Foucault the critical theory of the Frankfurt School as well as the libertarian socialism of G D H Cole What emerges is a new theory of

political legitimacy which indicates how it is possible to move beyond liberal democracy whilst avoiding the authoritarian turn of state socialism. Schechter points out the weaknesses of the many extra legal accounts of non formal legitimacy now on offer such as those based on friendship and identity. He then argues that the first step beyond hegemony depends on the discovery of forms of legitimate legality and demonstrates why the conditions of legitimate law can be identified.

Experimental Politics and the Making of Worlds Anja Kanngieser, 2016-04-15 Creative strategies have been central to global social movements. From the theatrics of the 1999 Seattle protests to the rebel clowns at the 2005 G8 summit in Gleneagles and the antics of the Yes Men, the crossovers between art and politics have increasingly become more visible and prolific. This book explores an innovative form of creative and communicative politics: the performative encounter as a strategy for facilitating new ways of being, relating and making worlds. Unlike existing scholarship that frames such encounters in artistic or cultural terms, this book analyzes performative encounters through an organizational lens to accentuate their social political potential, engaging a wealth of material from autonomist philosophy, political science, performance studies, geography and social movement texts. Intertwining conceptual and ethnographic research, it uniquely maps out one narrative of the encounter, tracing a line through the twentieth century from the Berlin Dadaists to the Situationist International to several contemporary German collectives and campaigns, showing how performative encounters intervene in global and local issues such as the privatization of public space and resources, human mobility and the corporatization of education.

Humour and Social Protest Marjolein 't Hart, Dennis Bos, 2007 The seventeen essays in this book examine the power of humour in framing social and political protest.

The Spectacle 2.0 Marco Briziarelli, Emiliana Armano, 2017-12-17 Spectacle 2.0 recasts Debord's theory of spectacle within the frame of 21st century digital capitalism. It offers a reassessment of Debord's original notion of Spectacle from the late 1960s of its posterior revisitation in the 1990s and it presents a reinterpretation of the concept within the scenario of contemporary informational capitalism and more specifically of digital and media labour. It is argued that the Spectacle 2.0 form operates as the interactive network that links through one singular but contradictory language and various imaginaries, uniting diverse productive contexts such as logistics, finance, new media and urbanism. Spectacle 2.0 thus colonizes most spheres of social life by processes of commodification, exploitation and reification. Diverse contributors consider the topic within the book's two main sections. Part I conceptualizes and historicizes the Spectacle in the context of informational capitalism; contributions in Part II offer empirical cases that historicise the Spectacle in relation to the present and recent past, showing how a Spectacle 2.0 approach can illuminate and deconstruct specific aspects of contemporary social reality. All contributions included in this book rework the category of the Spectacle to present a stimulating compendium of theoretical critical literature in the fields of media and labour studies. In the era of the gig economy, highly mediated content and President Trump, Debord's concept is arguably more relevant than ever.
