Ogan, 2009-12-15

The historiography of the First Gulf War does not examine logistics at the divisional level rather only high echelon logistics those at the Corps and Theater level are covered This leaves a significant gap in how the upper echelon logistics affected the combat units of the coalition This case study seeks to rectify this gap by examining historical logistics from World War II to the Gulf War and the logistics of the First Gulf War as a whole and subsequently placing the specific logistics of the 101st in the correct context
