She shares practical tips, powerful insights, real life examples, and budgeting plans so readers can recognize the lies and destructive behaviors they've held on to. Unlearning those behaviors will help you whatever your situation gain control over your spending and face a happier future of financial stability. Our God is the Author and Creator of order and peace. It is not God's will for any of His children to live in chaos, frustration, lack, and debt. If we get our heads and hearts right, we can line ourselves up with what He is doing, and our lives will mirror what God wants for us in us and through us.

What God Can Do with an Idiot Mark Dutton, DMin, 2016-02-29

This book is written to give hope on what God can do with us even though sometimes we make stupid, i.e. sinful, selfish, unbiblical decisions. Nobody is perfect; we all blow it sometimes. But God can still help us get back on our feet, learn the lessons we need to learn, and press on for the glory of God in all that we do. A man by the name of Paul, who did some stupid things, was still inspired by the Holy Spirit to write Ephesians 3:20. Now to Him who is able to do far more abundant beyond all that we could ask or think to the power that works within us.

Why Smart People Do Stupid Things: Revised and Updated Gene F. Ostrom, 2008-12-10

Why Smart People Do Stupid Things: Revised and Updated follows the original publication by more than seven years. We worried and fretted then particularly about the stupidity exhibited by two of our recent presidents. Of course we worried about ourselves and the host of other intelligent people who behaved out of character at one time or another. Today, rather than seeing improvement, we see a worsening of the condition in which obviously intelligent people do tragically stupid things. Not only that, the increased stupidity is operating at an institutional level. Note the functioning of major financial corporations, regulatory agencies of the federal government, and the United States Congress. It is mind-boggling. Answers aren't easy to come by because there are complex political and sociological factors that have bearing on the problem. But at the core, and where it most matters, are psychological and spiritual forces. We need to take a look at individuals, and individuals need to take a look at themselves. This book explores why and it offers possible solutions. The analyses are presented in a readily understandable style with numerous illustrations.
