Styles Of Piety Practicing Philosophy After The Death Of God:

Styles of Piety S. Clark Buckner, Matthew Statler, 2022 The last half century has seen both attempts to demythologize the idea of God into purely secular forces and the resurgence of the language of God as indispensable to otherwise secular philosophers for describing experience This volume asks whether piety might be a sort of irreducible human problematic functioning both inside and outside religion

Postmodern Apologetics?: Arguments for God in Contemporary Philosophy Christina M. Gschwandtner, 2013 Postmodern Apologetics provides an introduction to contemporary French thinkers who argue for the coherence and viability of Christian faith and religious experience with phenomenological and hermeneutical tools It treats both French philosophers and appropriations of their thought in the North American context

The End of the World and Other Teachable Moments Michael Naas, 2014-10-15 A Derrida scholar traces the evolution of the philosopher's final seminar in Paris as he contemplates the state of the world and his own mortality For decades philosopher Jacques Derrida held weekly seminars in Paris spending years at a time on a single complex theme From 2001 to 2003 he delivered the final work in this series entitled *The Beast and the Sovereign* As this final seminar progressed its central theme was diverted by questions of death mourning memory and especially the end of the world Now philosopher and Derrida scholar Michael Naas takes readers through the remarkable itinerary of Derrida's final seminar in *The End of the World and Other Teachable Moments* The book begins with Derrida's analyses of the question of the animal in the context of his other published works on that subject It then follows Derrida as a very different tone begins to emerge one that wavers between melancholy and extraordinary lucidity with regard to the end of life Focusing the entire second year on Daniel Defoe's novel *Robinson Crusoe* and Martin Heidegger's seminar *The Fundamental Concepts of Metaphysics* Derrida explores questions of the end of the world and of an originary violence that is both creative and destructive *The End of the World and Other Teachable Moments* follows Derrida from week to week as he responds to these emerging questions as well as to important events unfolding around him both world events the aftermath of 9/11 the American invasion of Iraq and more personal ones from the death of Maurice Blanchot to intimations of his own death less than two years away

The Decolonial Abyss An Yountae, 2016-10-03 *The Decolonial Abyss* probes the ethico-political possibility harbored in Western philosophical and theological thought for addressing the collective experience of suffering socio-political trauma and colonial violence In order to do so it builds a constructive and coherent thematization of the somewhat obscurely defined and underexplored mystical figure of the abyss as it occurs in Neoplatonic mysticism German Idealism and Afro-Caribbean philosophy The central question An Yountae raises is How do we mediate the mystical abyss of theology philosophy and the abyss of socio-political trauma engulfing the colonial subject What would theopoetics look like in the context where poetics is the means of resistance and survival This book seeks to answer these questions by examining the abyss as the dialectical process in which the self's dispossession before the encounter with its own finitude is followed by the rediscovery or

reconstruction of the self **Nocturnal Seeing** Elliot R. Wolfson, 2024-10-29 In this erudite new work Elliot R Wolfson explores philosophical gnosis in the writings of Susan Taubes Gillian Rose and Edith Wyschogrod The juxtaposition of these three extraordinary albeit relatively neglected philosophers provides a prism through which Wolfson scrutinizes the interplay of ethics politics and theology The bond that ties together the diverse and multifaceted worldviews promulgated by Taubes Rose and Wyschogrod is the mutual recognition of the need to enunciate a response to the calamities of the twentieth century based on an incontrovertible acknowledgment of the decadence and malevolence of human beings without however succumbing to acrimony and despair The speculation of each of these philosophers on melancholia and the tragicomedy of being is unquestionably intricate exhibiting subtle variations and idiosyncrasies but we can nevertheless identify a common denominator in their attempt to find the midpoint positioned between hope and hopelessness As Wolfson articulates Taubes Rose and Wyschogrod exemplify a philosophical sensibility informed by a nocturnal seeing which is not merely a seeing in the night but rather a seeing of the night Ultimately the book reveals the potential for these thinkers ideas to enhance our moral sensitivity and to encourage participation in the ongoing struggle for meaning and decency in the present **Modern**

Jewish Thought on Crisis Ghilad H. Shenhav, Cedric Cohen-Skalli, Gilad Sharvit, 2024-01-29 This volume brings together scholars from a range of disciplines to explore the intersections between crisis scholarship and action The aim of this book is to think about the moment of crisis through the concepts writings and methodologies awarded to us by Jewish thinkers in modernity This book offers a broad gallery of accounts on the notion of crisis in Jewish modernity while emphasizing three terms interpretation heresy and messianism The main thesis of the volume is that the diasporic and exilic experience of the Jewish people turned their philosophers and theologians into experts in crisis management who had to find resources within their own religion culture and traditions in order to react endure and overcome short and long term historical crises The underlining assumption of this book is therefore that Jewish thought obtains resources for conceptualizing and reacting to the current forms of crisis in the global European and Israeli spheres The volume addresses a large readership in humanities social and political sciences and religious studies taking as its assumption that scholars in modern Jewish thought have an extended responsibility to engage in contemporary debates *Everyday Strategic Preparedness* M. Statler, J.

Roos, 2007-06-27 Organizations struggle to be strategically prepared for unexpected change What if change cannot be anticipated with any degree of certainty What can organizations do to become more strategically prepared This book explores the answers to these questions and argues that organizations become more prepared when they cultivate practical wisdom On Becoming God: Late Medieval Mysticism and the Modern Western Self Ben Morgan, 2013 Do we have to conceive of ourselves as isolated individuals inevitably distanced from other people and from whatever we might mean when we use the word God On Becoming God offers an innovative approach to the history of the modern Western self by looking at human identity as something people do together rather than on their own as a way of managing and keeping at bay the

impulses and experiences associated with the word God The self is a way of doing things or of not doing things with God The book draws on phenomenology Heidegger gender studies Beauvoir Butler and contemporary neuroscience It surveys existing approaches to modern selfhood Foucault Charles Taylor and proposes an alternative account by investigating late medieval mysticism in particular texts written in Germany by Meister Eckhart and others It concludes by exploring the parallel between late medieval confessors and their spiritual charges and late nineteenth century psychoanalysts and their patients in search of a vocabulary for acknowledging and nurturing our everyday commitments to others and to our spiritual longings

Quiet Powers of the Possible Tarek R. Dika,W. Chris Hackett,2016-02-26 Quiet Powers of the Possible offers an excellent introduction to contemporary French phenomenology through a series of interviews with its most prominent figures Guided by rigorous questions that push into the most important aspects of the latest phenomenological research the book gives readers a comprehensive sense of each thinker s intellectual history motivations and philosophical commitments The book introduces readers to debates that have not previously been accessible to the English speaking world such as the growing interest in the phenomenological concept of life in its affective and even vital dimensions the emerging dialogue with the analytic philosophy of mind and language and reassessments of the so called theological turn The diversity of approaches collected here has its origin in a deeper debate about the conceptual and historical foundations of phenomenology itself In this way the book offers the most accessible and wide ranging introduction to French phenomenology to have appeared in the English speaking world to date

Difficult Atheism Christopher Watkin,2013-03-31 Drawing primarily on the work of Alain Badiou and Jean Luc Nancy plus Quentin Meillassoux and Slavoj Zizek Watkin explores the theme of atheism through the ideas of the death of God and nihilism in contemporary French philosophy
