Miller, AI, 2025-03-29 Naval Submarines explores the captivating history of underwater warfare from rudimentary submersibles to today's advanced nuclear submarines. The book highlights how the submarine evolved from a marginal weapon into a critical element of naval power projection, significantly impacting naval strategy and international relations. Early submarines, for example, were initially viewed with skepticism but their potential for stealth attacks and intelligence gathering gradually reshaped naval doctrine. Another key aspect explored is the technological race with advancements like diesel electric propulsion and nuclear power revolutionizing submarine capabilities. The book traces the evolution of submarines through key historical periods including their roles in both World Wars and the Cold War's nuclear standoff. It examines how submarines have been used in anti surface warfare, anti submarine warfare, and nuclear deterrence. The narrative unfolds systematically, starting with early submarine designs and progressing through technological breakthroughs and strategic shifts. It emphasizes the interplay between technological innovation and evolving military strategies, offering a comprehensive understanding of the submarine's impact on naval history and modern naval operations. Pitching Pat Jordan, 1993-05-21 Explains the basics of pitching and proper techniques for throwing the fastball, curveball, slider, screwball, knuckleball, and others. **Wordapodia: Volume One** Matthew J. Goldberg, 2010-09-02 Humorist and wordsmith extraordinaire Matthew Goldberg shares over two hundred and fifty fake words for others to learn and use as they attempt to heal themselves from carpool tunnel syndrome, battle strange hankerings for good old fashioned Talibanjo music, and watch helplessly as their dogs conk out from barkolepsy. Goldberg was unintentionally born into a family that has always used words creatively, and he relies on his internal artistic fire to share both one word and multiple word entries called wordapods. While introducing such words and phrases as boredello, anthropomurphic, and hit and shun accident, Goldberg includes definitions, sample sentences, ways to master the word, and trivia that will both entertain and inform. Goldberg interviews dozens of fascinating characters that help define the words, including Vegetarian Mars, Greenman, Pastafari, Scholar Tosh, Kingsmon, and baseball fan, and original boob bird Clara Heatley. Meant for the creative word enthusiast, the budding semantician, and for anyone with a good sense of humor, Wordapodia Volume One provides a unique compilation of new words, fun facts, and observations. So hold your breath, grab on to your caribooster seat, and get ready for a wild ride through one man's imagination.
