Submarines 1941-45 Mark Stille, 2012-06-20 During World War II the Imperial Japanese Navy was at the forefront of submarine technology. It fielded the largest pre nuclear submarines in the world, some capable of carrying floatplane bombers which operated alongside fast combat vessels and midget submarines, all equipped with the best torpedoes available. The Japanese submarine fleet should have been an awe inspiring force but despite playing a crucial scouting role and enjoying several notable successes it was surprisingly ineffective. Alongside unique color plates Mark Stille describes the astounding technical advances of this range of vessels and the wartime tactics responsible for their failure. The Japanese Submarine Force and World War II Akihiko Yoshida, 2013-01-15 When first published in 1995 this book was hailed as an absolutely indispensable contribution to the history of the Pacific War. Drawing heavily from Japanese sources and American wartime intercepts of secret Japanese radio messages, a noted American naval historian and a Japanese mariner painstakingly recorded and evaluated a diverse array of material about Japan's submarines in World War II. The study begins with the development of the first Japanese 103 ton Holland type submersible craft in 1905 and continues through the 1945 surrender of the largest

submarine in the world at the time the 5300 ton I 400 class that carried three airplanes Submarine weapons equipment personnel and shore support systems are discussed first in the context of Japanese naval preparations for war and later during the war Both successes and missed opportunities are analyzed in operations ranging from the California coast through the Pacific and Indian Oceans to the coast of German occupied France Appendixes include lists of Japanese submarine losses and the biographies of key Japanese submarine officers Rare illustrations and specifically commissioned operational maps enhance the text

Operating Below Crush Depth: LCDR David W. Grogan USN,2015-11-06 Prior to entering World War II the Japanese Navy did a considerable planning and force development in preparation for a single decisive battle with the American fleet The Japanese submarine force entered the war with highly trained crews operating some of the most capable submarines in the world Even so they accomplished little This study will analyze the genesis and evolution of the technological basis of the Japanese submarine fleet before and during the war Along with the technological evolution it will also review the strategic and tactical evolution of the force It will further analyze the employment of submarines as they apply to two major forms of naval warfare *guerre de course* and *guerre de main* While the entire study will use comparison with the American and German the majority of the focus will be on the unique aspects of the Japanese employment of their submarines These analyses will answer whether the Japanese submarine force would have been capable of influencing the results of major battles and the overall campaign in the Pacific Ocean Could the Japanese submarine force have influenced the result of the war allowing it to end with a more favorable outcome for the Japanese

The Secret Submarine Doctor Tom Lewis,2025-03-05 Uncover a forgotten battle off Australia s shores The official history of the Royal Australian Air Force claims that no enemy submarines operating off the Australian coast during World War II were sunk But what if history got it wrong In a fierce and decisive air action off the coast of New South Wales RAAF Beaufort bombers engaged a colossal Japanese submarine over 100 meters long What followed was a deadly duel between the submarine s anti aircraft guns and the bombers machine guns The I 178 with her crew of 88 lies lost somewhere north of Sydney The events of that day have remained buried until now In this groundbreaking work Tom Lewis one of Australia s leading military historians rewrites the history books The Secret Submarine not only reveals a forgotten victory but also immerses readers in the harrowing experiences of those who served in WWII bombers and submarines Additionally it chronicles the broader brutal struggle between Japanese forces and the combined might of the USA and Australia a conflict that saw over 40 ships sunk and countless lives lost off Australia s east coast Praise for Tom Lewis Tom Lewis has reminded us of the perils of lack of preparation in peacetime and the price to be paid in war for not recognising new technologies and methods for striking at Australians from the sea Attack on Sydney Harbour Lieutenant Commander Desmond Woods OAM RAN Tom Lewis never lets his readers down He has embedded a narrative with all the necessary historical and political background photographs maps diagrams pen pictures of key players as well as a closing epilogue Attack on Sydney Harbour Neville Taylor RUSI Vic

Remarkable in its sweep of World War II's Pacific theatre and the terrible price all involved would have paid if it continued Atomic Salvation would be ideal for a comprehensive documentary Ian Richards film maker An effective blend of historical narrative and scholarly argument Dr Tom Lewis's Atomic Salvation is both a memorable and enlightening reading experience Atomic Salvation Dr LFS Browne Historian The sanitized version of warfare in books and films omits the bloody and ferocious encounters at the sharp end of war this book explains The Truth of War Newcastle Herald *Japanese Submarines Combats In The Second World War* André Geraque Kiffer, 2024-09-23 In World War II although the United States had an unusually long supply line leaving it vulnerable to submarine attack Japan used its submarines primarily for long range reconnaissance and only occasionally attacked their lines The Imperial Japanese Navy followed the doctrine of *Guerre d'Escadre* fleet vs fleet warfare and consequently submarines were often used in offensive roles against warships In this book I will focus more on the tactical and technical decision making levels basing the tasks on examples taken from situations experienced by Japanese submarine crews during World War II However I will insert their missions into a broader framework of submarine warfare involving the strategic operational strategic and political decision making levels in order to meet the greatest opportunity that Japan had during the conflict which was an amphibious invasion of Hawaii the initial objective of Operation AI later changed to an air naval attack aircraft and midget submarines on the Pearl Harbor naval base And in the development of this simulation I will use the U Boot board game from Gal pagos Jogos **End Japanese Navy** Masanori Itō, 1984-12

Imperial Japanese Navy Antisubmarine Escorts 1941-45 Mark Stille, 2017-07-27 In 1941 the Imperial Japanese Navy IJN went to war with a marginal anti submarine warfare ASW capability This was a lamentable state of affairs for a nation dependent upon imports to sustain its war economy There were only a few purpose built ASW escorts available at the start of the war and these were augmented by a handful of second class destroyers and a dozen torpedo boats Once the magnitude of the threat to Japan's shipping became fully apparent in 1943 the IJN made plans for mass production of ASW escorts These arrived in 1944 but could not stop the massacre of Japanese shipping by increasingly bold and effective American submarines This volume will detail the history weapons and tactics of the IJN's ASW escorts These include the Momi class of second rate destroyers the Tomodzuru and Ootori classes of torpedo boats and the several types of ASW escorts built from 1937 up to the end of the war Midway Submerged Mark W. Allen, 2023-05-01 Naval history enthusiasts and military historians who enjoy taking deeper dives into the backgrounds of well known battles particularly concerning tactics and leadership will appreciate this read The book is enriched with well captioned photos diagrams and very detailed appendices which makes it an excellent reference work HistoryNet Most books gloss over submarines at Midway and if they are mentioned at all conclude they failed miserably and had little impact on the outcome of the battle It is undeniable that carrier aviation and intelligence saved the day but the role of the submarine was an important one in defense of an anticipated amphibious assault Midway Submerged is a comprehensive examination of a little known aspect of this pivotal naval battle explaining how Nimitz used his

submarines at Midway and the Japanese misused theirs based on a flawed tactical plan Based on in depth archival research not only into the battle itself but also submarine design and construction and tactical and operational doctrine for both the United States and Japan it brings a whole new dimension to the discussion of the battle of Midway It examines the intended role of the submarine in the plans and doctrine of both navies and what the submarines were expected to accomplish for both fleets during the battle before assessing the actual accomplishments successes and failures of the submarine forces on both sides Of particular importance the book offers an analysis of how well these vessels fulfilled the expectations placed on them by their respective naval planners concluding that submarines played a more important role in the outcome than has been previously understood
