Subordination And Equivalence:

Subordination and Equivalence Kari Elisabeth Børresen, 1981 Women in World Religions Arvind Sharma, Birks Professor of Comparative Religion Arvind Sharma, 1987-01-01 This is a book by women about women in the religions of the world. It presents all the basic facts and ideological issues concerning the position of women in the major religious traditions of humanity: Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Taoism, and tribal religions. A special feature of the book is its phenomenological approach wherein scholars examine sacred textual materials. Each contributor not only studies her religion from within but also studies it from her own feminine perspective. Each is an adept historian of religions who grounds her analysis in publicly verifiable facts. The book strikes a delicate balance between hard fact and delicate perception, the best tradition of phenomenology and the history of religions. It also demonstrates how much religions may vary over time. Contributors are Katherine K. Young, Associate Professor of Religious Studies at McGill University; Nancy Schuster Barnes, whose Ph.D. is in Sanskrit and Indian Studies; M. Theresa Kelleher, Assistant Professor of Religion and Asian Studies at Manhattanville College; Barbara Reed, Assistant Professor of Religion at St. Olaf College; Denise L. Carmody, Professor and Chair, Department of Religion, The University of Tulsa; Also Jane I. Smith, Associate Dean for Academic Affairs and Lecturer in Islamic Studies at Harvard Divinity School; Rosemary Radford Ruether, Georgia Harkness Professor of Applied Theology at the Garrett Evangelical Theological Seminary; Rita M. Gross, Associate Professor of Comparative Religions at the University of Wisconsin-Eau Claire. Subordination and Equivalence Kari Elisabeth Børresen, 1995 Subordination and Equivalence Kari Elisabeth Børresen, 1981-07-17 Water Is Thicker than Blood Jana Marguerite Bennett, 2008-03-04 This book considers how homes, households, and domestic life are related to the Church. Early theologies glorified the monastic lifestyle as a way to transcend earthly attachments in favor of supernatural goods. Contemporary thinkers have seen that functioning marriages and families themselves can lead us toward a more righteous society. Jana Bennett insists that both marriage and singleness must be placed in the context of the Christian story of redemption for the questions and problems at stake to be fully understood. She finds that Augustine of Hippo, maligned by modern theologians, is the source of very fruitful reflection on these topics. Most scholars today would agree that Augustine's works have exerted great influence on Western views of marriage, family, and sex. But many would argue that this influence has been detrimental to a healthy understanding of these topics. However, using Augustine's writing, Bennett shows that marriage and singleness cannot be considered separately; that gender issues are important to considering these states correctly and most important, that the marriage between Christ and the Church is the first consideration in understanding and living these states of life. The water of baptism, Christians' first birth and initiation into the life of Christ, is the primary standard for relationships rather than familial ties. John Calvin and the daughters of Sarah : Women in regular and exceptional roles in the exegesis of Calvin, his predecessors and his contemporaries John Lee Thompson, 1992 Calvin encouragea l'education f eminine et avec les autres r

Dawes,2014-06-26 In the early 1900s the Catholic Church appealed for the first time in its history directly to women to reassert its religious political and social relevance in Italian society This book examines how the highly successful conservative Catholic women s movements that followed and how they mobilized women against secular feminism [Triune Relationality](#) Sherene Nicholas Khouri,2024-11-19 A key area of disagreement between Christians and Muslims is the nature of God Is God a Trinity or absolutely one Applying insights from early Arabic Christian theologians and philosophers to current conversations Sherene Nicholas Khouri offers both historical and constructive responses to Islamic objections to the doctrine of the Trinity
