Substantial Similarity In Copyright Law:

Substantial Similarity in Copyright Law Robert C. Osterberg, Eric C. Osterberg, 2003 Substantial Similarity in Copyright Law lucidly examines the principal substantial similarity tests used by the various circuit courts to assess whether the copying of specific subject matter is sufficient to support a conclusion of copyright infringement *Substantial Similarity in Copyright Law* Robert C. Osterberg, 2003 **Decisions of the United States Courts Involving Copyright** Mark Augustine Lillis, 1985 **Copyright Law and Derivative Works** Omri Rachum-Twaig, 2018-10-26 Copyright law regulates creativity It affects the way people create works of authorship ex ante and affects the status of works of authorship significantly ex post But does copyright law really understand creativity Should legal theories alone inform our regulation of the creative process This book views copyright law as a law of creativity It asks whether copyright law understands authorship as other creativity studies fields do It considers whether copyright law should incorporate non legal theories and if so how it should be adjusted in their light For this purpose the book focuses on one of the many rights that copyright law regulates the right to make a derivative work A work is considered derivative when it is based on one or more preexisting works Today the owner of a work of authorship has the exclusive right to make derivative works based on her original work or to allow others to do so The book suggests a new way to think about both the right the tension and copyright law at large It proposes relying on non legal fields like cognitive psychology and genre theories and offers new legal theoretical justifications for the right to make derivative works As the first book to consider the intersection between copyright law creativity and derivative works this will be a valuable resource for students scholars and practitioners interested in intellectual property and copyright law *Reading Together and Apart* Laura A. Heymann, 2017 This response to Zahr K Said s A Transactional Theory of the Reader in Copyright Law 102 Iowa L Rev 605 2017 joins her in supporting a reader centered view of copyright infringement but asks whether within the bounds of reasonableness any particular reading can be privileged over any other If a juror sees a suave man calmly battling villains while driving a sports car and says that the character copies James Bond how do we know if she is right What if she sees Jason Bourne instead Professor Said s insightful article relying largely on Louise Rosenblatt s theory of efferent and aesthetic reading encourages us to pay more attention to how jurors and judges engage with artistic works but copyright doctrine s failure to put more meat on the bones of substantial similarity inevitably limits the effectiveness of any guidance jurors might receive Thus I suggest more attention should be paid to how jurors and judges function as scholars and critics that is how they converse with one another about their acts of reading and attempt to persuade others that their reading is correct We are as Professor Said thoughtfully reminds us engaged in constant acts of reading Her calls for more open conversations both inside and outside the courtroom about how we read are well worth heeding The process by which we read engage and interpret both together and apart should be the next set of experiences that copyright law should take into account Proceedings of the International
