Subterranean Force

Siddappa N.Byrareddy

Subterranean Force:

Subterranean Space in Contemporary Mexico City Literature Liesbeth François, 2021-05-05 This book studies the role of subterranean spaces in literary works about Mexico City It analyzes how underground spaces such as the subway the sewage system tunnels crypts and the subsoil itself relate to the whole of the city in a body of works published after 1985 the year of the deadliest earthquake in the capital's history The texts belong to the most important genres in urban literature the novel the short story and the crónica and demonstrate the crucial role played by the underground in contemporary imaginings of the megalopolis as it condenses and confronts the tensions that run through them This central idea is developed through four analytical chapters focusing on the political ecological historical and aesthetic dimension of subterranean imaginaries

Underground Europe Luca Queirolo Palmas, Federico Rahola, 2022-11-07 This book is grounded in an extended analogy between the 19th century story of the Underground Railroad in North America transporting fugitive slaves to safety in the North and the 21st century routes and trails of migrant passages to and within Europe It begins as a kind of historical travelogue tracing the remnants of the 19th century Underground Railroad in the US and Canada including its legacies and unfulfilled heritage It then shifts to the political present by ethnographically sketching a series of different border instances and situations both external and within the EU space Ventimiglia Athens Paris Calais Ceuta and Melilla Patras Pozzallo Focusing on the violent harshening of local border regimes this book nonetheless suggests a different picture one conceived as the dynamic effect of both migrants autonomy and of the solidarity provided by local and international groups Focusing on these specific and contested situations it is possible to reverse the image of a main borderland into one of a space crisscrossed by many routes and passages Reading those experiences through the historical lens of the US antebellum Underground Railroad the book suggests the idea of an analogous Underground Europe

Subterranean Force (Part One and Two) J. Erp, 2004-07-14 **The Underground Economy** United States. Congress. Joint Economic Committee, 1980 **Going Underground** Lara Langer Cohen, 2022-12-16 First popularized by newspaper coverage of the Underground Railroad in the 1840s the underground serves as a metaphor for subversive activity that remains central to our political vocabulary In *Going Underground* Lara Langer Cohen excavates the long history of this now familiar idea while seeking out versions of the underground that were left behind along the way Outlining how the underground's figurative sense first took shape through the associations of literal subterranean spaces with racialized Blackness she examines a vibrant world of nineteenth century US subterranean literature that includes Black radical manifestos anarchist periodicals sensationalist exposés of the urban underworld manuals for sex magic and the initiation rites of secret societies Cohen finds that the undergrounds in this literature offer sites of political possibility that exceed the familiar framework of resistance suggesting that nineteenth century undergrounds can inspire new modes of world making and world breaking for a time when this world feels increasingly untenable **The Living Age**, 1868 *The Quarterly*

Review William Gifford, Sir John Taylor Coleridge, John Gibson Lockhart, Whitwell Elwin, William Macpherson, William Smith, Sir John Murray (IV), Rowland Edmund Prothero (Baron Ernle), 1835 The Oxford Handbook of Karl Marx Matt Vidal, Tony Smith, Tomás Rotta, Paul Prew, 2019-03-26 Karl Marx is one of the most influential writers in history Despite repeated obituaries proclaiming the death of Marxism in the 21st century Marx's ideas and theories continue to guide vibrant research traditions in sociology economics political science philosophy history anthropology management economic geography ecology literary criticism and media studies Due to the exceptionally wide influence and reach of Marxist theory including over 150 years of historical debates and traditions within Marxism finding a point of entry can be daunting The Oxford Handbook of Karl Marx provides an entry point for those new to Marxism At the same time its chapters written by leading Marxist scholars advance Marxist theory and research Its coverage is more comprehensive than previous volumes on Marx in terms of both foundational concepts and state of the art empirical research on contemporary social problems It is also provides equal space to sociologists economists and political scientists with substantial contributions from philosophers historians and geographers The Oxford Handbook of Karl Marx consists of six sections The first section Foundations includes chapters that cover the foundational concepts and theories that constitute the core of Marx's theories of history society and political economy This section demonstrates that the core elements of Marx's political economy of capitalism continue to be defended elaborated and applied to empirical social science and covers historical materialism class capital labor value crisis ideology and alienation Additional sections include Labor Class and Social Divisions Capitalist States and Spaces Accumulation Crisis and Class Struggle in the Core Countries Accumulation Crisis and Class Struggle in the Peripheral and Semi Peripheral Countries and Alternatives to Capitalism Volcanos G. Poulett Scrope, 1872 **A New Geography of Japan for the Upper Forms of Schools and Colleges** Eustace Bruce Mitford, 1905

Unveiling the Power of Verbal Art: An Psychological Sojourn through **Subterranean Force**
