Suburban Form An International Perspective:

Suburban Form Kiril Stanilov, Brenda Case Scheer, 2004 This book examines and documents the remarkable development and transformation of suburban form throughout the globe during the twentieth century The premise that suburban areas are monotonous inert environments is put to a test through investigation of the complexity of those suburban settings and the dynamic physical changes that have taken place since their inception *International Perspectives on Suburbanization* N. Phelps, F. Wu, 2011-09-13 New urban developments such as office blocks warehouses and retail complexes are increasingly common in outer city regions across the world This book examines the processes of post suburbanization in international perspective exploring how developments across the world might be considered post suburban ISUF, Urban Morphology and Human Settlements Vítor Oliveira, 2024-07-03 This book offers insight into the most important scientific society on urban morphology worldwide the International Seminar on Urban Form ISUF After addressing the three decade history of ISUF the book analyses the present and future of this scientific society of urban morphology and of human settlements This timely and fundamental reflection gathers contributions from present and past leadership of ISUF since its inception in 1994 Over the last three decades the urban world has undergone major changes the urban population is now higher than the rural population more than half of the world s population lives on a single continent Asia home to almost three billion people in China and India alone so geographical imbalance is considerable and while half of the urban population still lives in small cities of fewer than 300 000 inhabitants the number of megacities has increased significantly How does the physical form of cities in different parts of the world respond to these dynamics Can cities preserve fundamental elements of humankind s urban heritage while accommodating changes driven by the main socioeconomic and environmental needs of today The field of urban morphology has been continuously adjusting to the essential dynamics of its object of study While developing and strengthening its most robust theories concepts and methods designed after the mid twentieth century urban morphology has been able to integrate innovative approaches for describing and explaining the emerging dynamics and patterns of urban form often incorporating groundbreaking technologies for data collection analysis modelling and simulation But what is the role of urban morphology in science and society today How effective is it in communicating a rigorous understanding of the urban landscape both to academics and researchers in other fields and to citizens in general How successful is it in providing practitioners with relevant and useful knowledge that informs their action on cities form and structure through spatial planning urban design and architecture This book addresses these fundamental questions offering academics researchers and practitioners comprehensive knowledge on human settlements the field of urban morphology and the role of ISUF in promoting groundbreaking morphological thought Critical Perspectives on Suburban Infrastructures Pierre Filion, Nina M. Pulver, 2019-05-06 Most new urban growth takes place in the suburbs consequently infrastructures are in a constant state of playing catch up creating repeated infrastructure

crises in these peripheries However the push to address the tensions stemming from this rapid growth also allow the suburbs to be a major source of urban innovation Taking a critical social science perspective to identify political economic social and environmental issues related to suburban infrastructures this book highlights the similarities and differences between suburban infrastructure conditions encountered in the Global North and Global South Adopting an international approach grounded in case studies from three continents this book discusses infrastructure issues within different suburban and societal contexts low density infrastructure rich Global North suburban areas rapidly developing Chinese suburbs and the deeply socially stratified suburbs of poor Global South countries Despite stark differences between types of suburbs there are features common to all suburban areas irrespective of their location and similarities in the infrastructure issues confronting these different categories of suburbs

Designing Suburban Futures June Williamson, 2013-05-07 Suburbs deserve a better more resilient future June Williamson shows that suburbs aren't destined to remain filled with strip malls and excess parking lots they can be reinvigorated through inventive design Drawing on award winning design ideas for revitalizing Long Island she offers valuable models not only for U S suburbs but also those emerging elsewhere with global urbanization Williamson argues that suburbia has historically been a site of great experimentation and is currently primed for exciting changes Today dead malls aging office parks and blighted apartment complexes are being retrofitted into walkable sustainable communities Williamson shows how to expand this trend highlighting promising design strategies and tactics She provides a broad vision of suburban reform based on the best schemes submitted in Long Island's highly successful Build a Better Burb competition Many of the design ideas and plans operate at a regional scale tackling systems such as transit aquifer protection and power generation While some seek to fundamentally transform development patterns others work with existing infrastructure to create mixed use shared networks Designing Suburban Futures offers concrete but visionary strategies to take the sprawl out of suburbia creating a vibrant new suburban form It will be especially useful for urban designers architects landscape architects land use planners local policymakers and NGOs citizen activists students of urban design planning architecture and landscape architecture

Handbook of Research on Urban-Rural Synergy Development Through Housing, Landscape, and Tourism Krstić-Furundžić, Aleksandra, Djukić, Aleksandra, 2019-11-29 As cities continue to grow with advancing technologies the spatial and temporal gaps between rural and urban areas are shrinking thereby requiring the sectors to interact with each other While the prospect is to develop each area without hampering the newfound synergy between them there are still many barriers and concerns that hinder this inevitable urban rural relationship The Handbook of Research on Urban Rural Synergy Development Through Housing Landscape and Tourism is a pivotal reference source that focuses on the applications and challenges of creating cooperation between urban and rural areas along various fields While highlighting topics including suburbanization weekend residence zones and homeostasis this publication is ideally designed for architects sector managers region developers urban planners urban

developers construction managers urban studies professionals academicians researchers and students seeking current research on lessening the urban rural gap in both global and local contexts *Retrofitting Suburbia, Updated Edition* Ellen Dunham-Jones, June Williamson, 2011-03-23 Updated with a new Introduction by the authors and a foreword by Richard Florida this book is a comprehensive guide book for urban designers planners architects developers environmentalists and community leaders that illustrates how existing suburban developments can be redesigned into more urban and more sustainable places While there has been considerable attention by practitioners and academics to development in urban cores and new neighborhoods on the periphery of cities there has been little attention to the redesign and redevelopment of existing suburbs The authors both architects and noted experts on the subject show how development in existing suburbs can absorb new growth and evolve in relation to changed demographic technological and economic conditions *Retrofitting Suburbia* was named winner in the Architecture Urban Planning category of the 2009 American Publishers Awards for Professional and Scholarly Excellence The PROSE Awards awarded by The Professional and Scholarly Publishing PSP Division of the Association of American Publishers Street-Level Architecture Conrad Kickert, Hans Karssenber, 2022-08-04 This book provides the tools to maintain and rebuild the interaction between architecture and public space Despite the best intentions of designers and planners interactive frontages have dwindled over the past century in Europe and North America This book demonstrates why even our best intentions for interactive frontages are currently unable to turn a swelling tide of economic and technological evolution land consolidation introversion stratification and contagious decline It uses these lessons to offer concrete locational programming design and management strategies to maximize street level interaction and trust between street level architecture its inhabitants and the city This book demonstrates that designers developers planners and managers ultimately have to create the right preconditions for inhabitants and passersby to bring frontages to life These preconditions connect architecture to its urban social economical and technological context Only the right frontage in the right context with the right design the right inhabitation and the right attitude to the city will become part of the ecosystem of trust and interaction that supports public life This book empowers the many participants in this ecosystem to build inhabit and enjoy truly urbane architecture *CORP 2011 Proceedings/Tagungsband* Manfred Schrenk, Vasily V. Popovich, Peter Zeile, Old Europe, New Suburbanization? Nicholas A. Phelps, 2017-01-01 *Old Europe New Suburbanization* takes us on a journey of rediscovery into some of Europe s oldest metropolises The volume s contributors reveal the great variety of patterns and processes of urbanization that make Europe a fruitful ground for furthering the diversity of global suburbanisms
