Department of child welfare and euthenics, Helen W. Ford, 1939 **Rewire Your Brain For Success** J.D. Rockefeller, 2015-12-19 If you are one of those who believe in the phrase You are what you think then you also believe that your life is something that stems from the thoughts that you have However you cannot just purely rely on your thoughts Instead you need to translate your thoughts into words Then eventually these words turn into actions for you to manifest your intentions It means that you need to be extra careful with the words that come out of your mouth choosing to say only those that will work towards your benefit and cultivate your highest good The affirmations will be able to help you purify your thoughts and start restructuring the dynamic of your brain in order for you to really start thinking that there is nothing impossible in this world Affirmation is a word that came from the Latin term affirmare that originally means to strengthen or make steady The affirmations can really strengthen you by helping you believe in all the potentials of an action that you would like to manifest Every time you

verbally affirm your ambitions and dreams you are instantly empowered with a deeper sense of reassurance that your wishful words will turn into reality Affirmations are the proven and tested methods of self improvements due to their ability to rewire your brain Similar with exercise these can raise the level of the feel good hormones and push your brains into forming brand new clusters of positive thought As far as the sequence of thought speech and action is concerned the affirmations play a crucial role through breaking the patterns of negative thoughts the negative speech and ultimately negative actions
