The Monastic Achievement:

The Monastic Achievement George Zarnecki, 1972 **The Monastic Achievement** Jerzy Żarnecki, 1972 *The Emergence of Monasticism* Marilyn Dunn, 2008-04-15 The Emergence of Monasticism offers a new approach to the subject placing its development against the dynamic of both social and religious change First study in any language to cover the formative period of medieval monasticism Gives particular attention to the contribution of women to ascetic and monastic life

The Catholic Church Through the Ages John Vidmar, Op, 2014-05-14 This one volume survey of the history of the Catholic Church from its beginning through the pontificate of John Paul II explains the Church's progress by using Christopher Dawson's division of the Church's history into six distinct ages or 350 400 year periods of time **The Marvellous and the Monstrous in the Sculpture of Twelfth-century Europe** Kirk Ambrose, 2013 Richly illustrated consideration of the meaning of the carvings of non human beings from centaurs to eagles found in ecclesiastical settings Representations of monsters and the monstrous are common in medieval art and architecture from the grotesques in the borders of illuminated manuscripts to the symbol of the green man widespread in churches and cathedrals These mysterious depictions are frequently interpreted as embodying or mitigating the fears symptomatic of a dark age This book however considers an alternative scenario in what ways did monsters in twelfth century sculpture help audiences envision perhaps even achieve various ambitions Using examples of Romanesque sculpture from across Europe with a focus on France and northern Portugal the author suggests that medieval representations of monsters could service ideals whether intellectual political religious and social even as they could simultaneously articulate fears he argues that their material presence energizes works of art in paradoxical even contradictory ways In this way Romanesque monsters resist containment within modern interpretive categories and offer testimony to the density and nuance of the medieval imagination KIRK AMBROSE is Associate Professor Chair Department of Art and Art History University of Colorado Boulder **A Companion to Gregory of Tours** Alexander C. Murray, 2015-11-16 Gregory bishop of Tours 573 594 was among the most prolific writers of his age and uniquely managed to cover the genres of history hagiography and ecclesiastical instruction He not only wrote about events of the secular spiritual and even natural variety but about himself as an actor and witness Though his work especially the Histories has been recycled and studied for centuries our grasp of an even basic understanding of it never mind Gregory's significance in the history of the late antique West has hardly yet attained a definitive perspective A Companion to Gregory of Tours brings together fourteen scholars who provide an expert guide to interpreting his works his period and his legacy in religious and historical studies Contributors are Pascale Bourgain Roger Collins John J Contreni Stefan Esders Martin Heinzelmann Yitzhak Hen John K Kitchen Simon Loseby Alexander Callander Murray Patrick P rin Joachim Pizarro Helmut Reimitz Michael Roberts Richard Shaw Social Attitudes and Political Structures in the Fifteenth Century Tim Thornton, 2001-02-13 This volume includes papers on political religious social and economic history and the history of ideas

during the 15th century The papers challenge existing conceptions and open new avenues of discussion on longstanding debates Themes covered include parliaments and their relationships with the monarchs of the period both in Scotland and in England queens and their role in the 15th century English polity the ideas that lay behind the English claims to the French throne and the rituals of peace making in the Hundred Years War Debates over the importance of lordship and service are also touched upon in a paper which examines Lord Hastings retainers in the defence of Calais while another chapter discusses the local politics of a small Welsh marcher lordship The crucial subject of Lancastrian government finances in the 1450s also receives a fresh examination In religious history papers examine the activity of monastic propagandists and the religious life of cathedrals through the activity of fraternities based in them There are also considerations of a noble widow and of the 15th century rural economy

The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane,2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture
