The Monopoly Makers Ralph Nader, 1973 This title examines monopolies in the American economy as gathered in a study under Ralph Nader The authors examine government policies regulatory agencies and potential conflicts of interest within these groups **Citibank; Ralph Nader's Study Group Report on First National City Bank** David Leinsdorf, Donald Etra, 1974 *The Competition Improvements Act of 1975* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust and Monopoly, 1976 **Hearings, Reports and Prints of the Senate Committee on the Judiciary** United States. Congress. Senate. Committee on the Judiciary, 1977 *Recommendations and Reports* Administrative Conference of the United States, **The Chicago School of Political Economy** Nadia Mizner, Warren Samuels, 2021-12-16 The Chicago School of Economics is arguably the most successful and influential since World War II This volume provides an interpretation of the Chicago school through constructive critique of its doctrines It is an inquiry into the nature role and significance of the school and its doctrines within both the economics profession and the larger world of ideas and action This volume offers a deeper understanding of the school of its strengths and weaknesses and of the tasks of any body of thought that hopes to comprise an alternative **Mastery and Drift** Brent Cebul, Lily Geismer, 2025-02-11 A revelatory look at modern liberalism s historical evolution and enduring impact on contemporary politics and society Since the 1960s American liberalism and the Democratic Party have been remade along professional class lines widening liberalism s impact but narrowing its social and political vision In *Mastery and Drift* historians Brent Cebul and Lily Geismer have assembled a group of scholars to address the formation of professional class liberalism and its central role in remaking electoral politics and the practice of governance Across subjects as varied as philanthropy consulting health care welfare race immigration economics and foreign conflicts the authors examine not only the gaps between liberals egalitarian aspirations and their approaches to policymaking but also how the intricacies of contemporary governance have tended to bolster professional class liberals power The contributors to *Mastery and Drift* all came of age amid the development of professional class liberalism giving them distinctive and important perspectives in understanding its internal limitations and its relationship to neoliberalism and the Right With never ending disputes over the meaning of liberalism the content of its governance and its relationship to a resurgent Left now is the time to consider modern liberalism s place in contemporary American life Pushing for Midwives Christa Craven, 2010-10-22 A history of the re emergence of midwifery in America **From Watergate to Whitewater** Marion T. Doss, Robert North Roberts, 1997-09-23 The two decades since the Watergate scandal have seen an unprecedented focus on ethics in government The public integrity scandals of the Clinton administration have once again focused national attention on ethics in Washington This work addresses this very topical subject and the authors come to some unusual conclusions Tracing the origins of the modern public integrity war back to the very birth of the nation the authors explain how conservatives and progressives have used allegations of unethical conduct in

an effort to persuade the American public to accept their respective visions for American society A cynical public anesthetized to the distinction between actual wrongdoing and partisan attack follows ideology and self interest rather than character allowing politicians to get away with even the most egregious conduct *Promoting Competition in Regulated Markets* Almarin Phillips, 1975
