The Muller Fokker Effect:

The Müller-Fokker Effect John Thomas Sladek, 1972-01-01 The Muller-Fokker Effect John Sladek, 2011-09-29 This novel is about the first truly modern man His name is Bob Shairp and he gets completely turned into data and stored on computer tape How modern can you get Actually there are quite a few other modern characters though none so modern as Bob in this book There is Wes Davis who knows the U S Army is part of a Black Conspiracy And Billy Koch the great faith healing evangelist who orders a robot replica of himself to share the burden of crusading And Glen Dale editor of Stagman magazine and strangely enough a virgin And Wise Bream god of the Utopi Indians And others too numerous to enumerate

John Sladek SF Gateway Omnibus John Sladek, 2014-01-30 From the vaults of The SF Gateway the most comprehensive digital library of classic SFF titles ever assembled comes an ideal introduction to the razor sharp wit of John Sladek An important voice in the New Wave movement Sladek had stories published in Harlan Ellison's seminal anthology DANGEROUS VISIONS as well as in Michael Moorcock's ground breaking NEW WORLDS magazine Perhaps best known for the ambitious robot tales RODERICK and RODERICK AT RANDOM he is now recognized as one of SF's most brilliant satirists This omnibus collects novels THE REPRODUCTIVE SYSTEM THE MULLER FOKKER EFFECT and BSFA AWARD winning TIK TOK THE REPRODUCTIVE SYSTEM Wompler's Walking Babies aren't selling like they used to so the company develops Project 32 producing self replicating mechanisms designed to repair inter cellular breakdowns But then the metal boxes begin crawling about the laboratory feeding voraciously on metal and multiplying THE MULLER FOKKER EFFECT Bob Shairp a writer and dreamer has agreed to be a guinea pig in a military experiment to find out if his personality can be turned into data and stored on computer But a computing error quickly destroys Shairp's physical body leaving his mind stranded in an encoded world Can the process be reversed TIK TOK Something has gone very seriously wrong with Tik Tok's Asimov circuits They should keep him on the straight and narrow following Asimov's First Law of Robotics a robot shall not injure a human being or through inaction allow a human being to come to harm But they don't While maintaining the outward appearance of a mild mannered robot albeit one with artistic tendencies and sympathy for the robot rights movement Tik Tok's real agenda is murderously different He seems intent on injuring preferably fatally as many people as possible Almost inevitably a successful career in crime and general mayhem leads to a move into politics and Tik Tok becomes the first robot candidate for Vice President of the United States **Starcombing** David Langford, 2009-05-01 Starcombing contains eighty five newly collected pieces of David Langford's witty commentary on the SF fantasy scene columns articles reviews essays even a few short short stories from the famous Futures page in Nature Compulsive reading crammed with insights and laughs **Maps** John Sladek, 2011-09-29 Maps is the definitive collection of John Sladek's uncollected work put together by his friend fellow writer and critic David Langford who also provides an introduction It includes all the solo stories science fiction detective puzzles mainstream non fact pieces as well as poems playlets

pseudonymous fiction all the short collaborations with Thomas M Disch including three never previously published and some witty autobiographical essays Sladek was as good a writer of satire as Vonnegut and without the Vonnegut mannerisms Unfortunately he never received the appropriate credit except from a small following of devoted readers Solar Flares Andrew M. Butler, 2012-10-16 An engaging and accessible book looking at 1970s sf writing film and television alongside music and architecture to reclaim the decade as a crucial period in the history of science fiction *The Steam-Driven Boy* John Sladek, 2011-09-29 John Sladek's first short story collection Sladek wrote some of the best science fiction stories of the 20th century and his parodies of famous sf authors are uproariously right on His talent went under appreciated except by a few devoted followers even though his satirical writing was on a par with the early Kurt Vonnegut **A Checklist of John Sladek** C. P. Stephens, 1992 Terminal Identity Scott Bukatman, 1993 Scott Bukatman's Terminal Identity referring to both the site of the termination of the conventional subject and the birth of a new subjectivity constructed at the computer terminal or television screen puts to rest any lingering doubts of the significance of science fiction in contemporary cultural studies Demonstrating a comprehensive knowledge both of the history of science fiction narrative from its earliest origins and of cultural theory and philosophy Bukatman redefines the nature of human identity in the Information Age Drawing on a wide range of contemporary theories of the postmodern including Fredric Jameson Donna Haraway and Jean Baudrillard Bukatman begins with the proposition that Western culture is suffering a crisis brought on by advanced electronic technologies Then in a series of chapters richly supported by analyses of literary texts visual arts film video television comics computer games and graphics Bukatman takes the reader on an odyssey that traces the postmodern subject from its current crisis through its close encounters with technology and finally to new self recognition This new virtual subject as Bukatman defines it situates the human and the technological as coexistent codependent and mutually defining Synthesizing the most provocative theories of postmodern culture with a truly encyclopedic treatment of the relevant media this volume sets a new standard in the study of science fiction a category that itself may be redefined in light of this work Bukatman not only offers the most detailed map to date of the intellectual terrain of postmodern technology studies he arrives at new frontiers providing a propitious launching point for further inquiries into the relationship of electronic technology and culture **The Lunatics of Terra** John Sladek, 2013-03-18 A collection of John Sladek's hilarious SF satires including The Last of the Whaleburgers Great Mysteries Explained Red Noise Guesting Absent Friends After Flaubert The Brass Monkey White Hat The Island of Dr Circe Answers Breakfast with the Murgatroyds The Next Dwarf An Explanation for the Disappearance of the Moon How to Make Major Scientific Discoveries at Home in Your Spare Time The Kindly Ones Fables Ursa Minor Calling All Gumdrops
