## **The Mirage:**

**Heart Of The Mirage** Glenda Larke,2011-12-08 Stolen from her people as a child and raised as a citizen of the Tyranian Empire Ligea Gayed is the obvious choice to despatch to her homeland occupied Kardiastan with orders to root out a rebel conspiracy At first she devotes herself to her new assignment with zeal Adopted daughter of the Empire s greatest general and possessing a fearsome reputation within the ruthless Imperial spy network known as the Brotherhood Ligea views herself as a loyal servant of Tyrans But blood will out and with each day she spends among her parents people her disciplined self image crumbles a little And there are secrets in Kardiastan secrets that will inevitably force Ligea to choose between her upbringing and her birthright Secrets that will shape the destiny of two nations **The Mirage** Zay N. Smith,Pamela Zekman,1979 Published two years after their award winning newspaper series this is the compelling day by day account of two Sun Times reporters who infiltrated the small businessman s world to expose corruption within the Chicago government Zekman and Smith bought The Mirage tavern then sat back and recorded the parade of city inspectors liquor vendors tradesmen and others with their sticky fingers extended With evidence in hand they shut down the bar and wrote a series of articles that have never been matched in intensity and long term effect The Mirage became synonymous with Chicago corruption The journalistic accolades also flowed in but the Zekman and Smith s bid for the biggest the Pulitzer Prize was torpedoed perhaps by jealous colleagues at another major metropolitan paper This edition includes a new afterword by the authors **Jet Fighters** Jim Winchester,2011-12-15 Presents illustrations historical notes facts and specifications for jet fighters ranging from the earliest designs of the mid twentieth century to some of the most modern fighters in use today

**The World's Most Powerful Military Aircraft** Thomas Newdick,2016-12-15 Ever since man first took to the air combat aircraft have been at the cutting edge of aviation technology resulting in some of the greatest and most complex designs ever built The World s Greatest Military Aircraft features 52 of the most important military aircraft of the last hundred years including everything from biplane fighters and carrier aircraft to tactical bombers transport aircraft multirole fighters strategic strike aircraft and stealth bombers Each entry includes a brief description of the model s development and history a profile view key features and specifications Packed with more than 200 artworks and photographs this is a colorful guide for the military aviation enthusiast **Las Vegas Dreams , Air Corps News Letter** ,1970 *The Greatest Lie on Earth (Expanded Edition)* Edward Hendrie,2018-09-12 This book reveals the mother of all conspiracies It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth The most universally accepted scientific belief today is that the earth is a globe spinning on its axis at a speed of approximately 1 000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66 600 miles per hour All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500 000 miles per hour The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to

1 340 000 miles per hour What most people are not told is that the purported spinning orbiting and speeding through space has never been proven In fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it     Aircraft of The Royal Australian Air Force Air Force History Branch,2021-06-01 Aircraft of The Royal Australian Air Force tells the story of the RAAF s first one hundred years by describing the acquisition operation and service record of the multitude of aircraft types flown by the RAAF The 176 aircraft types include the flimsy wood and canvas aircraft typical of World War I through the technological advances during and after World War II to modern fifth generation complex aircraft like the F 35 Lightning II Even before its formation Sir Richard Williams the Father of the RAAF had decided to employ an alpha numeric numbering system to identify and account for each aircraft in service This system started with A1 A2 A3 etc as each type of aircraft came into service Each individual aircraft within each series was identified as A1 1 A1 2 and so on and the aircraft serial became known colloquially as the A number With some exceptions over the century since the A number system started aircraft entered RAAF service in broadly the sequence of the A numbers and so this book is intended to assist in charting the 100 year history of the RAAF by listing aircraft operated in A number sequence rather than by listing them by role such as Fighter Bomber Maritime Trainer Transport etc or alphabetically by name or by manufacturer The inclusion of a comprehensive Index and the Quick Reference Guide to aircraft by role is intended to facilitate the location of the entry for any specific type of aircraft for those who may not already know its A number Aircraft of The Royal Australian Air Force is a must have for all those who have served in the RAAF those with a passion for military aviation and aircraft in general and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its centenary year     **Christian Work** ,1901     Lavi John W. Golan,2016-01-01 The Lavi fighter program the largest weapons development effort ever undertaken by the State of Israel envisioned a new generation of high performance aircraft In a controversial strategy Israel Aircraft Industries intended to develop and manufacture the fighters in Israel with American financial support The sophisticated planes developed in the mid 1980s were unique in design and intended to make up the majority of the Israeli air force Though considerable prestige and money were at stake developmental costs increased and doubts arose as to whether the Lavi could indeed be the warplane it was meant to be Eventually the program became a microcosm for the ambitions fears and internal divisions that shaped both the U S Israeli relationship and Israeli society itself But the fighter never made it to operational service and until now the full breadth and significance of the Lavi story have never been examined and presented Lavi The United States Israel and a Controversial Fighter Jet traces the evolution of the Lavi fighter from its genesis in the 1970s to its scrapping in

August 1987 John W Golan examines the roles of Israeli military icons and political leaders such as Ezer Weizman Ariel Sharon Menachem Begin and Yitzhak Rabin in the program and in relation to their counterparts in the United States On the American side Golan traces the evolution of government policy toward the program detailing the complex picture of the U S foreign policy apparatus and of U S Israeli relations in general from President Reagan s public endorsement of the program on the White House lawn to Defense Secretary Caspar Weinberger s unremitting attempts to cancel it in succeeding years
