**The Moon's a Balloon** David Niven,1976      **The Moon's a Balloon** David Niven,1976      *The Day We Went to War* Terry Charman,2010-07-08 11 15 am 3 September 1939 Prime Minister Neville Chamberlain confirms the nation s fears by announcing that Britain is at war with Germany Outbreak is the definitive history of the build up to outbreak and first few months of the Second World War Drawing on the Imperial War Museum s extensive archives this book features the personal stories of real men and women who lived through the startling events of that year as well as those who were actively involved in the political negotiations and their aftermath Featuring numerous photographs and the voices of key players as well as contributions from well known figures who were directly affected by the build up to war Outbreak is a gripping record of an extraordinary year in British history      Carol Reed Peter William Evans,2019-01-04 Carol Reed is one of the truly outstanding directors of British cinema and one whose work is long overdue for reconsideration This major study ranges over Reed s entire career combining observation of general trends and patterns with detailed analysis of twenty films both acknowledged masterpieces and lesser known works Evans avoids a simplistic auteurist approach placing the films in their autobiographical socio political and cultural contexts and relating these to the analysis of Reed s art The critical approach combines psychoanalysis gender theory and the analysis of form Archival research is also relied on to clarify Reed s relations with his creative team financial backers and others Films examined include Bank Holiday A Girl Must Live Odd Man Out The Fallen Idol The Third Man Night Train to Munich The Way Ahead Outcast of the Islands Trapeze and Oliver      **John F. Kennedy** Michael O'Brien,2006-05-16 John F Kennedy creates an absorbing insightful and distinguished biography of one of America s most legendary Presidents While current fashion in Kennedy scholarship is to deride the man s achievements this book describes Kennedy s strengths explains his shortcomings and offers many new revelations There are many specialized books on Kennedy s career but no first class modern biography one that takes advantage of the huge volume of recent books and articles and new material released by the JFK library Ten years in the making this is a balanced and judicious profile that goes beyond the clash of interpretations and offers a fresh nuanced perspective      *Outbreak: 1939* Terry Charman,2010-05-05 11 15 am 3 September 1939 The nation gathers around their radios to hear Prime Minister Neville Chamberlain make the announcement they have feared for months Britain is at war with Germany Seventy years on from that historic day this is the definitive history of the build up to outbreak and first few months of World War Two from the events of early 1939 right through to the first war time Christmas Drawing on the Imperial War Museum s extensive archives this book will feature the personal stories of real men and women who lived through the startling events of that year as well as those who were actively involved in the political negotiations and their aftermath Featuring numerous photographs and the voices of key players as well as contributions from well known figures who were directly affected by the build up to an outbreak of war this will be a unique document of an extraordinary year in our history      **The Moon's a Balloon** David Niven,1994

**The Broadview Introduction to Literature** Lisa Chalykoff, Neta Gordon, Paul Lumsden, 2013-08-08 Designed for courses taught at the introductory level in Canadian universities and colleges this new anthology provides a rich selection of literary texts In each genre the anthology includes a vibrant mix of classic and contemporary works Each work is accompanied by an author biography and by explanatory notes and each genre is prefaced by a substantial introduction Pedagogically current and uncommon in its breadth of representation *The Broadview Introduction to Literature* invites students into the world of literary study in a truly distinctive way

*The Future Revisited* Francoise Schiltz, 2012-05-04 *The Future Revisited* examines Hollywood adaptations of Jules Verne stories and is an interdisciplinary study that offers a fresh perspective on film history French literature science fiction and America in the 1950s It is a fascinating and authoritative account of how the stories of Jules Verne a distinguished French novelist better known around the world as the father of science fiction and an accurate predictor of much of the twentieth century found particular resonance with US filmmakers in the 1950s Schiltz looks at four of the most popular films *Around the World in 80 Days* *20 000 Leagues Under the Sea* *Journey to the Center of the Earth* and *Mysterious Island* and argues that there were many parallels between Verne's technological adventures and postwar America with its theme parks shopping malls Levittowns and plethora of consumer goods Just as nineteenth century readers of Verne's books could experience travel from the comfort of their seats viewers of these films could be swept away on an imaginary flight a voyage in a submarine or a trek to the earth's core all in spectacular widescreen and with ground breaking special effects Yet the pleasures offered were ambivalent encounters with exotic places and cultures might have led the audience to question common assumptions such as gender roles seeing futuristic domestic spaces could highlight the confusion of attitudes to private and public life in suburbia and the films blending of nostalgia and progress might draw attention to society's tug of war between innovation and conformity
