

THE MOTHER OF ALL WEBS

WHO GOTCHA!

TANGLED WEBS-VOL. III

The Vampire Black Widow sits atop her throne as the Violin Spider whines his tune and the viper's venom takes its paralyzing effect. Are ye destined to perish in the web of deceit and entangled lies or shall ye take God's hand and find thine way home? So be it for the time is at hand for the choosing.

readers learn by taking a voyeuristic peek into the private family lives of the book's characters. Readers can identify with the fictitious parents and coaching clients in the stories and see first hand how the characters' life experiences shaped their unique good mother myths and how these myths create conflict in their lives. The author offers up ideas for how the character can reject her current thinking and adopt a more useful outlook to improve her situation. The story arc allows readers to identify and then project how their parenting may be unknowingly going off the rails. The goal of this book is to provide parents with some basic education and a means of self discovery. Readers uncover their own good mother myths and are given an eye opening glimpse into potential issues to challenge their thinking. A great sense of empowerment is restored as mothers become better able to resist the pulls of their personal and cultural myths and instead begin parenting with greater intention and in ways that are more suitable to proper child guidance. Real-World Media Ethics Philippe

Perebinosoff, 2012-07-26 The Los Angeles Times recently reported that the word integrity was the most looked up word on Merriam Webster's online dictionary suggesting that people are looking for guidance in a scandal driven world. Issues of ethics and the media continue to dominate our awareness and present real challenges in our day to day work. This book shows the ethical decision making process in action using tools of critical analysis and evaluation. Real World Media Ethics is written in a friendly and approachable voice. It succeeds in offering an honest frontline aware and realistic sense of the ethical situations faced by entertainment and journalism professionals every day in the real world. Most of the other books about media ethics focus mostly on journalism; this book however covers not just journalistic ethics but also ethics in the landscape of mass media including public relations, the entertainment industry and other forms of visual communication. The author includes numerous case studies about current headlines that readers will already be familiar with, providing realistic and engaging scenarios about when, how and why ethics count.
