California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory history, *The Cold Vanish* is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.
