awareness of the present and preparing for the future lies in our understanding of the past yet there is little coverage of this topic in the existing psychology and counselling literature How can people improve themselves by greater self knowledge Jeff and Christina Garland break new ground in making a straightforward presentation of the theory and practice of the everyday process of life review which is a therapeutic approach for helping clients make sense of their past and can be used to help change undesirable behaviour and plan for the future The theory and structure of the life review process are examined and clinical examples of how it works in practice are given this includes interviews both with narrators people engaged in life review and listeners health and social care professionals These examples demonstrate how professionals can use life review to help their clients overcome difficulties in their lives and face the future with confidence Life Review will appeal to trainees and practitioners in occupational developmental clinical and health psychology social work counselling psychotherapy and nursing

The Handbook of Research on Black Males Theodore S. Ransaw, C.P. Gause, Richard Majors, 2018-11-01

Drawing from the work of top researchers in various fields The Handbook of Research on Black Males explores the nuanced and multifaceted phenomena known as the black male Simultaneously hyper visible and invisible black males around the globe are being investigated now more than ever before however many of the well meaning responses regarding media attention paid to black males are not well informed by research Additionally not all black males are the same and each of them have varying strengths and challenges making one size fits all perspectives unproductive This text which acts as a comprehensive tool that can serve as a resource to articulate and argue for policy change suggest educational improvements and advocate judicial reform fills a large void The contributors from multidisciplinary backgrounds focus on history research trends health education criminal and social justice hip hop and programs and initiatives This volume has the potential to influence the field of research on black males as well as improve lives for a population that is often the most celebrated in the media and simultaneously the least socially valued

You are what You Hear Harry Witchel, 2010 Pondering the musicality of everything from bird songs to the language he calls motherese Dr Witchel illustrates the power of music and addresses the questions Why do we have music What does music do to our emotions Can animals hear and understand music What does music do to your brain Why do people listen to sad music Why do some people like classical but others only like heavy metal Is there some essential feature to all music You Are What You Hear is an erudite and entertaining study that is unique in many ways No other book has thoroughly elaborated the connection between music and social territory in humans although in other music making species scientists have shown this connection to be clear cut Given the wealth of scientific evidence and historical narratives presented in You Are What You Hear an intellectual investigation of this avenue is long overdue Written by a psychobiologist the work straddles hard science and psychology approaching music from a unique interdisciplinary perspective Successfully bridging these strands of evidence You Are What You Hear elucidates the significance of territory not only in music but in daily life This lively and engaging book will have a broad appeal not only to

the general public but to students interested in the relationship between music and culture Anyone from seventeen to ninety seven will have the potential to gain something from this book
