Ruiz, Evelyn R. Klein, Louis R. Chesney, 2021-12-13 ECHO A Vocal Language Program for Easing Anxiety in Conversation is for clinicians supporting individuals who may experience social anxiety related to speaking in specific situations or with certain individuals Anxiety has a negative impact on working memory which can make it difficult for individuals to communicate with ease With reduced experiences talking to a variety of people in various situations speaking often becomes more challenging The ECHO program was developed to build ease and comfort with social pragmatic communication focusing on improving conversational skills for children from later elementary through teenage years The program can be implemented by speech language pathologists psychologists educators and other facilitators including parents who support the needs of children and teens with selective mutism stuttering and those in need of social communication support This unique intervention program combines methods of vocalization and verbalization to enhance conversational skills with role play simulations for real life application There are three modules in the ECHO program that build upon each other Module 1 uses interactive games to focus on vocal control helping the child or teen learn how to initiate voice modulate intonation and volume with greater ease and produce classes of speech sounds in words and sentences Module 2 provides targeted skills for the child or teen to use language for different purposes change language for the listeners or situation and follow rules for conversation and storytelling all with online interactive games to become a more spontaneous communicator Module 3 builds on the previous two modules by providing conversational role plays which simulate real life situations in school at home and in social and public settings A cognitive behavioral therapy CBT framework

is applied to help reduce cognitive distortions Key Features Three modules bridging the gap from vocalization to conversation The ECHO Checklist to identify communication needs Social Communication Skills Pragmatics Checklist The ARC model for understanding anxiety tolerance rescue reduction and communication confidence Thirty five interactive games and activities with over 150 photos online and printed to help children and teens gain skills necessary to vocalize and engage in conversation Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book Comm 2000, Learner's Guide AIT, AIT Staff, South-Western Educational Publishing, The Agency for Instructional Technology, 1995 C2000 is an innovative program that uses multimedia technology to present a comprehensive communication curriculum specifically designed to assist students in making the school to work transition This innovative twelve module series builds on the success of AITUs original Applied Communication c 1988 series that helped define the applied communication curriculum for so many educators The modules provide the basis for a one or two year Communication or English course Each module contains 15 rigorous lessons
