## **Skin Disease A Message From The Soul:**

**Skin Disease** Anne Maguire (Physician), 2004      **Skin Disease** Anne Maguire, 2004 The last fifty years have encompassed unparalleled development in the world of scientific medical research Yet the causation of many diseases eludes consciousness Nowhere is this more apparent than in the sometimes neglected discipline of dermatology as a scientific basis for causation and treatment is offered to very few diseases of the skin In fact the cause is unknown in the vast majority of cases This work is an exploration of the unconscious psychic background of acute but mainly chronic skin diseases It is a study which includes both the personal unconscious of each individual and the vast archetypal world with its communication by image and symbol which is named the collective unconscious or objective psyche Its reality was established 100 years ago by C G Jung's early work with the galvanometer and the word association test through the medium of the skin He was to describe psyche including consciousness and the unconscious realm as the greatest of all cosmic wonders His concept of the human soul included this totality of psyche The development of the field of biofeedback later in the last century revealed the extraordinary ability of the skin to reflect the inner life of psyche In this psychological exploration of each individual troubled by problems of the skin a wide variety of psychic emotional disturbances was uncovered in the course of the study It also became apparent that the skin is a paramount psychic reflector in a singularly graphic way in many instances The conscious recognition of these hidden disturbances and the acceptance by the individual proved to be the key factor in the study This realization with its inherent meaning usually brought amelioration of symptoms and often a resolution of the ailment The skin disease in such cases is a message from the soul itself      **The Feminine Entrapped Within a Fruit** Inácio

Cunha, 2022-06-15 The main purpose of this book is to investigate the archetypal motif of the feminine entrapped within vegetable species mainly fruits Several fairy tales originated in different regions America Europe Africa and Eastern countries were analyzed This motif deals primarily with the dynamic of suppression and repression of the feminine as well as its redemption which may occur in the collective consciousness Throughout the text the reader will have the chance to observe how the dynamic of suppression and repression of the feminine as well as its redemption may occur not only collectively but also as a subjective happening within the psyche of both man and woman The symbolical meaning of each fruit portrayed in the tales the importance of the water and the shadowy aspects of both the masculine and feminine principles are taken in to enhance the psychological understanding of human psyche as far as the play of oppositions is concerned Dreams of modern man and woman are also analyzed to demonstrate the actuality of the theme      Dynamis of Healing Pia Sophia Chaudhari, 2019-08-06 This book explores how traces of the energies and dynamics of Orthodox Christian theology and anthropology may be observed in the clinical work of depth psychology Looking to theology to express its own religious truths and to psychology to see whether these truth claims show up in healing modalities the author creatively engages both disciplines in order to highlight the possibilities for healing contained therein Dynamis of Healing elucidates

how theology and psychology are by no means fundamentally at odds with each other but rather can work together in a beautiful and powerful synergia to address both the deepest needs and deepest desires of the human person for healing and flourishing

**Somatic Cinema** Luke Hockley, 2013-10-30 Films can hold personal psychological meanings that are often at odds with their narratives Examining the intersections between mental health and the cinema Somatic Cinema represents the cutting edge of film theory evaluating the significance of this phenomenon both in therapy and in the everyday world Luke Hockley draws on the insights of phenomenological and Jungian film theory and applies them alongside more established psychoanalytic approaches The result is to combine the idea of affective bodily experience with unconscious processes as a means to explore a new ontology of the cinema The emphasis is therefore shifted from pure intellectual insight to greater inclusion of personally constructed meanings and experiences Several key concepts are developed and explored throughout the book These include The idea of the Third Image occupying the intersubjective space between viewer and screen and therapist and client The concept of the Cinematic Frame as opposed to the Film Frame the container of the psychological relationship between viewer and screen The use of the Cinematic Experience to encapsulate the somatic expression of unconscious effects that develop while a film is viewed and which are central to the creation of personal psychological meanings With a focus on examining why we develop a personal relationship with films Somatic Cinema is ideal for academics and students of film studies media studies and analytical psychology
