The Archaeology of Slavery in Early Medieval Northern Europe Felix Biermann, Marek Jankowiak, 2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three section review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates

This Is Our Home Whitney Nell Stewart, 2023-11-06 The cultural memory of plantations in the Old South has long been clouded by myth A recent reckoning with the centrality of slavery to the US national story however has shifted the meaning of these sites Plantations are no longer simply seen as places of beauty and grandiose hospitality their reality as spaces of enslavement exploitation and violence is increasingly at the forefront of our scholarly and public narratives Yet even this reckoning obscures what these sites meant to so many forced to live and labor on them plantations were Black homes as much as white Insightfully reading the built environment of plantations considering artifact fragments found in excavations of slave dwellings and drawing on legal records and plantation owners papers Whitney Nell Stewart illuminates how enslaved people struggled to make home amid innumerable constraints and obstacles imposed by white southerners By exploring the material remnants of the past Stewart demonstrates how homemaking was a crucial part of the battle over slavery and freedom a fight that continues today in consequential confrontations over who has the right to call this nation home

Slaves in the Family Edward Ball, 2014-04-22. Journalist Ball confronts the legacy of his family's slave-owning past, uncovering the story of the people both black and white who lived and worked on the Ball's South Carolina plantations. It is an unprecedented family record that reveals how the painful legacy of slavery continues to endure in America's collective memory and experience. Ball, a descendant of one of the largest slave-owning families in the South, discovered that his ancestors owned 25 plantations worked by nearly 4,000 slaves. Through meticulous research and by interviewing scattered relatives, Ball contacted some 100,000 African Americans who are all descendants of Ball slaves. In intimate conversations with them, he garnered information, hard words, and devastating family stories of precisely what it means to be enslaved. He found that the family plantation owners were far from benevolent patriarchs; instead, there is a dark history of exploitation, interbreeding, and extreme violence. Publisher description.

Slavery in the Age of Memory Ana Lucia Araujo, 2020-10-15. Exploring notions of history, collective memory, cultural memory, public memory, official memory, and public history. *Slavery in the Age of Memory: Engaging the Past* explains how ordinary citizens, social groups, governments, and institutions engage with the past of slavery and the Atlantic slave trade. It illuminates how and why, over the last five decades, the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade. The book draws on a variety of case studies to investigate its central questions: How have social actors and groups in Europe, Africa, and the Americas engaged with the slave past of their societies? Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States? How have black and white social actors and scholars influenced the ways slavery is represented in George Washington's Mount Vernon and Thomas Jefferson's Monticello in the United States? How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa? What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington, DC? Why have artists used their works to confront the debates about slavery and its legacies? The important debates addressed in this book resonate in the present day. Arguing that memory of slavery is racialized and gendered, the book shows that more than just attempts to come to terms with the past, debates about slavery are associated with the persistent racial inequalities, racism, and white supremacy which still shape societies where slavery existed. *Slavery in the Age of Memory: Engaging the Past* is thus a vital resource for students and scholars of the Atlantic world, the history of slavery, and public history.

Slavery and the University Leslie Maria Harris, James T. Campbell, Alfred L. Brophy, 2019-02-01. *Slavery and the University* is the first edited collection of scholarly

essays devoted solely to the histories and legacies of this subject on North American campuses and in their Atlantic contexts Gathering together contributions from scholars activists and administrators the volume combines two broad bodies of work 1 historically based interdisciplinary research on the presence of slavery at higher education institutions in terms of the development of proslavery and antislavery thought and the use of slave labor and 2 analysis on the ways in which the legacies of slavery in institutions of higher education continued in the post Civil War era to the present day The collection features broadly themed essays on issues of religion economy and the regional slave trade of the Caribbean It also includes case studies of slavery s influence on specific institutions such as Princeton University Harvard University Oberlin College Emory University and the University of Alabama Though the roots of Slavery and the University stem from a 2011 conference at Emory University the collection extends outward to incorporate recent findings As such it offers a roadmap to one of the most exciting developments in the field of U S slavery studies and to ways of thinking about racial diversity in the history and current practices of higher education
