Arctic Bibliography Arctic Institute of North America,1953      Into the Great Emptiness: Peril and Survival on the Greenland Ice Cap David Roberts,2022-12-13 A Library Journal Best Book of 2022 in Science and Technology A gripping saga and one of Roberts s finest books Jon Krakauer The riveting story of one of the greatest but least known sagas in the history of exploration By 1930 no place in the world was less well explored than Greenland The native Inuit had occupied the relatively accessible west coast for centuries The east coast however was another story In August 1930 Henry George Watkins nicknamed Gino a twenty three year old British explorer led thirteen scientists and explorers on an ambitious expedition to the east coast of Greenland and into its vast and forbidding interior to set up a permanent meteorological base on the icecap 8 200 feet above sea level The Ice Cap Station was to be the anchor of a transpolar route of air travel from Europe to North America The weather on the ice cap was appalling Fierce storms Temperatures plunging lower than 50 Fahrenheit in the winter Watkins s scheme called for rotating teams of two men each to monitor the station for two months at a time No one had ever tried to winter over in that hostile landscape let alone manage a weather station through twelve continuous months Watkins was younger than anyone under his command But he had several daring trips to the Arctic under his belt and no one doubted his judgement The first crisis came in the fall when a snowstorm stranded a resupply mission halfway to the top for many weeks When they arrived at the ice cap there were not enough provisions and fuel for another two man shift so the station would have to be abandoned Then team member August Courtauld made an astonishing offer To enable the mission to go forward he would monitor the station solo through the winter When a team went up in March to relieve Courtauld after weeks of brutal effort to make the 130 mile journey they could find no trace of him or the station By the end of March Courtauld s situation was desperate He was buried under an immovable load of frozen snow and was disastrously short on supplies On April 21 four months after Courtauld began his solitary vigil Gino Watkins set out inland with two companions to find and rescue him David Roberts veteran mountain climber and chronicler of adventures Washington Post draws on firsthand accounts and archival materials to tell the story of this daring expedition and of the epic survival ordeal that ensued      **Sledge : the British Trans-Greenland Expedition, 1934** Lindsay, Martin,1935      *Sledge. Mills reveals a number of intriguing connections between the various explorers their patrons and times and the process of discovery in all areas of the polar regions Furthermore he provides the reader with a clear understanding of the intellectual climate as well as the dominant social economic and political forces surrounding each expedition Readers will learn why the journeys were undertaken not just where when and how **To the Ends of the Earth** Ranulph Fiennes,2014-09-11

Ranulph Fiennes has entered the public imagination as the intrepid explorer par excellence Taunted by his wife over the challenge of the never before attempted circumpolar navigation of the globe he set off in 1979 on a gruelling 52 000 mile adventure Together with fellow members of 21 SAS regiment Fiennes left from Greenwich travelling over land passing through both ends of the polar axis Completed over two years later it was the first circumpolar navigation of the globe and justifiably entered Fiennes into the record books TO THE ENDS OF THE EARTH is the record of that journey It captures the natural beauty of the landscapes they passed through and the camaraderie that necessarily grows between men who had served in the British forces elite regiment and were now throwing themselves into danger of a different sort Time and again the expedition found themselves in life threatening situations weaving through the pack ice of the Arctic Ocean or sharing a single sleeping bag to ward off the 40 degrees celsius Arctic night The calm and measured approach which made Fiennes such a great expedition leader shines through TO THE ENDS OF THE EARTH deftly recreating the last unexplored regions on earth It is also a book which lays the foundations for what was to come for Fiennes confirming a need to exist outside the comfortable norms the rest of us inhabit As the expedition progresses there is also a mounting sense of tension as attainment of the final goal also spells the end of the adventure TO THE ENDS OF THE EARTH is a compelling account of one journey and Fiennes drive to push himself to ever further extremes Grønland John Andersen,2006 John Andersen er den eneste i verden som har padlet hele veien rundt Grønland Noen strekninger alene andre sammen med grønlandske og danske reisefeller I boken forteller han om eventyr dramatiske situasjoner og enestående naturopplevelser på Grønlandsstkyst Boken er illustrert med 140 fotografier i farger *Geographical the Monthly Magazine of the Royal Geographical Society* ,1936

Weather Bureau,1957 Arranged alphabetically within ten year groups **Annual Magazine Subject-index** ,1937 *Oxford Dictionary of National Biography* 2005-2008 Lawrence Goldman,2013-03-07 Who made modern Britain This book drawn from the award winning

Oxford Dictionary of National Biography tells the story of our recent past through the lives of those who shaped national life. Following on from the Oxford DNB's first supplement volume, noteworthy people who died between 2001 and 2004, this new volume offers biographies of more than 850 men and women who left their mark on twentieth and twenty-first century Britain and who died in the years 2005 to 2008. Here are the people responsible for major developments in national life from politics, the arts, business, technology, and law to military service, sport, education, science, and medicine. Many are closely connected to specific periods in Britain's recent history. From the 1950s, the young Harold Pinter or the Yorkshire cricketer Fred Trueman, for example. From the Sixties, the footballer George Best, photographer Patrick Lichfield, and the Pink Floyd musician Syd Barrett. It's hard to look back to the 1970s without thinking of Edward Heath and James Callaghan, who led the country for seven years in that turbulent decade, or similarly Freddie Laker, pioneer of budget air travel, and the comedians Ronnie Barker and Dave Allen, who entertained with their sketch shows and sit-coms. A decade later, you probably browsed in Anita Roddick's Body Shop or danced to the music of Factory Records, established by the Manchester entrepreneur Tony Wilson. In the 1990s, you may have hoped that things can only get better with a New Labour government, which included Robin Cook and Mo Mowlam. Many in this volume are remembered for lives dedicated to a profession or cause: Bill Deedes or Conor Cruise O'Brien in journalism; Ned Sherrin in broadcasting; or indeed Ted Heath, whose political career spanned more than 50 years. Others were responsible for discoveries or innovations of lasting legacy and benefit: among them, the epidemiologist Richard Doll, who made the link between smoking and lung cancer; Cicely Saunders, creator of the hospice movement; and Chad Varah, founder of the Samaritans. With John Profumo, who gave his name to a scandal, policeman Malcolm Fewtrell, who investigated the Great Train Robbery, or the Russian dissident Aleksandr Litvinenko, who was killed in London in 2006, we have individuals best known for specific moments in our recent past. Others are synonymous with popular objects and experiences evocative of recent decades: Mastermind with Magnus Magnusson; the PG Tips chimpanzees trained by Molly Badham; John DeLorean's gull-wing car; or the new British Library, designed by Colin St John Wilson. Though as rounded and balanced accounts, Oxford DNB biographies also set these events in the wider context of a person's life story. Authoritative and accessible, the biographies in this volume are written by specialist authors, many of them leading figures in their field. Here you will find Michael Billington on Harold Pinter; Michael Crick on George Best; Richard Davenport-Hines on Anita Roddick; Brenda Hale on Rose Heilbron; Roy Hattersley on James Callaghan; Simon Heffer on John Profumo; Douglas Hurd on Edward Heath; Alex Jennings on Paul Scofield; Hermione Lee on Pat Kavanagh; Geoffrey Wheatcroft on Conor Cruise O'Brien; and Peregrine Worsthorne on Bill Deedes. Many in this volume are naturally household names. But a good number are also remembered for lives away from the headlines. What in the 1980s became Thatcherism owed much to behind-the-scenes advice from Ralph Harris and Alfred Sherman; children who learned to read with Ladybird Books must thank their creator Douglas Keen; while without its first producer Verity Lambert, there would have been no Doctor Who. Others are ordinary

people capable of remarkable acts Take for instance Arthur Bywater who over two days in 1944 cleared thousands of bombs from a Liverpool munitions factory following an explosion only to do the same months later in an another factory Awarded the George Cross and the George Medal Bywater remains the only non combatant to have received Britain s two highest awards for civilian bravery     **The European Antarctic** P. Roberts,2011-12-19 This is the first transnational study of British Norwegian and Swedish engagement with the Antarctic Rather than charting how Europeans unveiled the Antarctic it uses the history of Antarctic activity as a window into the political and cultural worlds of twentieth century Britain and Scandinavia     **The Magazine Subject-index** ,1937 Contains the cumulation of the subject index issued in the quarterly numbers of the Bulletin of bibliography and magazine subject index     *Spur Called Courage* Alan Ogden,2011-07-01 A vivid recount of the little known exploits of 17 courageous Special Operations Executive SOE officers in Italy during World War II In this inspiring new study of the SOE and Italian Resistance 17 extraordinary stories of individual SOE officers illustrate the many and varied tasks of SOE missions throughout the different regions of Italy from 1943 1945 Through their gallantry ingenuity and determination a small handful of SOE missions were able to arm and inspire thousands of Italians to fight the occupying German army after 1943 and in the process give invaluable support to the advancing Allied armies as they pushed north towards Austria     Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library.
