study of Chinese culture s relationship to the natural environment across thousands of years of history Spanning the three

millennia for which there are written records The Retreat of the Elephants is the first comprehensive environmental history

of China It is also a treasure trove of literary political aesthetic scientific and religious sources which allow the reader direct

access to the views and feelings of Chinese people toward their environment and their landscape China scholar and historian

Mark Elvin chronicles the spread of the Chinese style of farming that eliminated elephant habitats the destruction of most of

the forests the impacts of war on the landscape and the re engineering of the countryside through gigantic water control

systems He documents the histories of three contrasting localities within China to show how ecological dynamics defined the

lives of the inhabitants And he shows that China in the eighteenth century was probably more environmentally degraded than

northwestern Europe around this time Indispensable for its new perspective on long term Chinese history and its explanation

of the roots of China s present day environmental crisis this book opens a door into the Chinese past     **Merchant Vessels**
