Slices Of Life Writing From North America:

Slices of life : writing from North America [Anonymus AC06966967],1993 **Encyclopedia of Life Writing** Margaretta Jolly,2013-12-04 First published in 2001 Routledge is an imprint of Taylor Francis an informa company **The Blackwell Companion to Religion in America** Philip Goff,2010-03-25 This authoritative and cutting edge companion brings together a team of leading scholars to document the rich diversity and unique viewpoints that have formed the religious history of the United States A groundbreaking new volume which represents the first sustained effort to fully explain the development of American religious history and its creation within evolving political and social frameworks Spans a wide range of traditions and movements from the Baptists and Methodists to Buddhists and Mormons Explores topics ranging from religion and the media immigration and piety though to politics and social reform Considers how American religion has influenced and been interpreted in literature and popular culture Provides insights into the historiography of religion but presents the subject as a story in motion rather than a snapshot of where the field is at a given moment **The Oxford English Literary History: Volume 12: The Last of England?** Randall Stevenson,2005-11-10 English Literature in the 1960s soon threw off its post war weariness and the tepid influences of the previous decade New voices new visions and new commitments profoundly reshaped writing during the 60s and throughout the rest of the century Drama thrived on its rapidly rebuilt foundations New freedoms of style and form revitalised fiction Poetry too gradually recovered the variety and inventiveness of earlier years As well as comprehensively charting these changes in the literary field Randall Stevenson persuasively pinpoints their origins in the historical social and intellectual pressures of the times Literary developments are revealingly related to the wider evolution and profound changes in English experience in the late twentieth century to shadows of war and loss of empire declining influences of class shifting relations between the genders emergent minority and counter cultures and the broadening democratization of contemporary life in general Analyses of the rise of literary theory of publishing and the book trade and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough insightful description of writing in the later twentieth century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised Lucid accessible and engaging this volume of the Oxford English Literary History presents a unique illumination of its age one we have lived through but are only just beginning to understand The first full account of its period it will set the agenda for discussion of late twentieth century literature for many years to come *Race and the Forms of Knowledge* Ben Spatz,2024-02-15 Enacts a radically interdisciplinary intersectionality to position performance based research in solidarity with decoloniality This boldly innovative work interrogates the form and meaning of artistic research also called practice research performance as research and research creation examining its development within the context of predominately white institutions that have enabled and depoliticized it while highlighting its radical potential when reframed as a lineage of critical whiteness practice Ben Spatz crafts a fluid yet critical new framework

explored via a series of case studies that includes Spatz's own practice as research to productively confront hegemonic modes of white writing and white institutionality. Ultimately taking Jewishness as a paradigmatically molecular identity variously configured as racial, ethnic, religious, or national, they offer a series of concrete methodological and formal proposals for working at the intersections of embodied identities, artistic techniques, and alternative forms of knowledge. *Race and the Forms of Knowledge: Technique, Identity, and Place in Artistic Research* takes inspiration from recent critical studies of blackness and indigeneity to show how artistic research is always involved in the production and transformation of identity. Spatz offers a toolkit of practical methods and concepts from molecular identities to audiovisual ethnotechnics and earthing the laboratory for reimagining the university and other contemporary institutions. *Alice Munro* Carol Mazur, Cathy Moulder, 2007-04-23 This bibliography compiled to fill a gap in literary research relating to Munro's work covers all of her fictional writing up to 2005 and includes annotations to interviews, Munro's non-fiction writings, and hundreds of critical books, theses, and articles. These descriptive annotations coupled with a detailed subject index display the broad range of subject approaches, assessments, and angles by which her complex, deep, and multi-layered work has been scrutinized by academics, journalists, writers, and critics. *Slices of Life* Thalia Rubio, 1993 B A compilation of unadapted, unabridged stories and essays by a series of well-known authors, this volume provides insight into modern North American society using North American writings to describe the many different points of view that make up Canadian, American, and universal cultural themes. From such popular authors as James Thurber, Roald Dahl, Grace Paley, and Alice Munro, this sourcebook explores a variety of topics of universal interest, including the role of the elderly in today's society, discrimination, handicaps, families, and justice. Suitable for anyone involved or interested in universal societal issues in North America. **American English** Walt Wolfram, Natalie Schilling, 2015-12-21 The new edition of this classic text chronicles recent breakthrough developments in the field of American English, covering regional, ethnic, and gender-based differences. Now accompanied by a companion website with an extensive array of sound files, video clips, and other online materials to enhance and illustrate discussions in the text. Features brand new chapters that cover the very latest topics such as Levels of Dialect, Regional Varieties of English, Gender and Language Variation, The Application of Dialect Study, and Dialect Awareness. Written for students taking courses in dialect studies, variationist sociolinguistics, and linguistic anthropology, and requires no pre-knowledge of linguistics. Includes a glossary and extensive appendix of the pronunciation, grammatical, and lexical features of American English dialects. *Country Life in America*, 1905 *Climate Changes: Global Perspectives* Lena Pfeifer, Molina Klingler, Hannah Nelson-Teutsch, 2022 *Climate Changes: Global Perspectives* brings together creative approaches to representing environmental crises in a globalized world, which originated in an eponymous symposium hosted virtually by the University of Würzburg in August of 2021. This volume and the unruly texts that claim space here are written not only to
