International Guide to Student Achievement John Hattie,Eric M. Anderman,2012 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of

scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs

School Size Effects Revisited Hans Luyten, Maria Hendriks, Jaap Scheerens, 2014-06-26 This book provides a thorough review of the research literature on the effect of school size in primary and secondary education on three types of outcomes student achievement non cognitive outcomes and costs per student Based on 84 scientific publications and several prior reviews the book discusses four main areas the impact of school size on cognitive learning outcomes and non cognitive outcomes the state of the art of empirical research on economies of size the direct and indirect impact of school size conditioned by other school context variables on student performance and the specific position of the Netherlands in an international perspective The book presents summaries of the results and main conclusions found and discusses these with respect to their relevance for educational policy in general and for the Netherlands in particular The book concludes with suggestions for future research on school size
