preservation of the bison an animal sacred to many Native Americans and an icon of the American West are at least as old as the nation's first national park Established in 1872 in part to protect against the wanton destruction of the fish and game Yellowstone has from the first been dedicated to preserving wildlife along with the park s other natural wonders The Smithsonian Institution itself founded in 1848 viewed the park's resources as critical to its own mission looking to Yellowstone for specimens to augment its natural history collections and later to stock the National Zoo How this relationship developed around the conservation and display of American wildlife with these two distinct organizations coming to mirror one another is the little known story Diane Smith tells in Yellowstone and the Smithsonian Even before its founding as a national park and well before the creation of the National Park Service in 1916 the Yellowstone region served as a source of specimens for scientists centered in Washington D C Tracing the Yellowstone Washington reciprocity to the earliest government sponsored exploration of the region Smith provides background and context for many of the practices such as animal transfers and captive breeding pursued a century later by a new generation of conservation biologists She shows how Yellowstone through its relationship with the Smithsonian the National Museum and ultimately the National Zoo helped elevate the iconic nature of representative wildlife of the American West particularly bison Her book helps all of us not least of all historians and biologists to better understand the wildlife management and conservation policies that followed National Mall Nathan Glazer, Cynthia R. Field, 2008-07-30 The National Mall in Washington D C has held an important place in the American psyche since the early nineteenth century Home to monuments and museums dedicated to the ideals upon which the United States rests the Mall serves as a gathering place for public protest and celebration But as the nation ages and the population diversifies demands for additional structures and uses have sparked debates over the Mall s future and the necessity of preserving its legacy and the vision of its designers The National Mall addresses these issues with a novel and compelling collection of essays the work of leading design professionals historians and social scientists Supplemented by eye catching illustrations and photographs this cross disciplinary examination follows the discussion over the Mall's design and use from its conceptual origins as part of Pierre Charles L Enfant's vision for the capital to the 1902 McMillan Plan to the present day and beyond It assesses how architectural societal and political changes have altered the park like space between the Capitol and the Lincoln Memorial and explores the influence that disparate interest groups and creeping corporatism have already had on and are likely to exert upon America's public square The National Mall presents an overarching account of how a democratic society plans creates and expands a national ceremonial space opening the way for a broadly based inquiry into the Mall as it was is and will become Urban planners architectural and design historians and engaged citizens will be challenged and well served by the thoughtful essays collected by Nathan Glazer and Cynthia R Field **Beyond the Revolution** William H Goetzmann, 2009-02-24 From 1776 when Citizen Tom Paine declared The birthday of a new world is at hand America was unique in world history A nation suffused with the spirit of explorers constantly replenished by immigrants

and informed by a continual influx of foreign ideas it was the world's first truly cosmopolitan civilization In Beyond the Revolution Pulitzer Prize winning historian William H Goetzmann tells the story of America's greatest thinkers and creators from Paine and Jefferson to Melville and William James showing how they built upon and battled one another s ideas in the critical years between 1776 and 1900 An unprecedented work of intellectual history by a master historian this book will be essential reading for anyone interested in the origins of our national culture William Stimpson and the Golden Age of American Natural History Ronald Scott Vasile, 2018-06-19 William Stimpson was at the forefront of the American natural history community in the latter half of the nineteenth century Stimpson displayed an early affinity for the sea and natural history and after completing an apprenticeship with famed naturalist Louis Agassiz he became one of the first professionally trained naturalists in the United States In 1852 twenty year old Stimpson was appointed naturalist of the United States North Pacific Exploring Expedition where he collected and classified hundreds of marine animals Upon his return he joined renowned naturalist Spencer F Baird at the Smithsonian Institution to create its department of invertebrate zoology He also founded and led the irreverent and fun loving Megatherium Club which included many notable naturalists In 1865 Stimpson focused on turning the Chicago Academy of Sciences into one of the largest and most important museums in the country Tragically the museum was destroyed in the Great Chicago Fire of 1871 and Stimpson died of tuberculosis soon after before he could restore his scientific legacy This first ever biography of William Stimpson situates his work in the context of his time As one of few to collaborate with both Agassiz and Baird Stimpson's life provides insight into the men who shaped a generation of naturalists the last before intense specialization caused naturalists to give way to biologists Historians of science and general readers interested in biographies science and history will enjoy this compelling biography The Passionate Empiricist Marlana Portolano, 2009-01-01 Explores John Quincy Adams s oratorical work in support of government funded science This book introduces readers to the role that classical oratory played in changing early American attitudes about pure scientific research Marlana Portolano investigates the impact of John Quincy Adams s oratorical campaigns on the origins of government funded science in America with a special focus on his classical theory of rhetorical engagement and civic duty In this age where so much government funding of science is based in the military industrial complex it is fascinating to look at arguments for and against government funding of science at a time when such funding The Lives of Dillon Ripley Roger D. Reflections of a Culture Broker Richard Kurin,2014-12-10 Is culture brokered like stocks real estate or marriage In this engaging book Richard Kurin shows that cultures are also mediated and indeed brokered by countries organizations communities and individuals all with their own vision of the truth and varying abilities to impose it on others Drawing on his diverse experiences in producing exhibitions and public programs Kurin challenges culture brokers defined broadly to include museum professionals film makers journalists festival producers and scholars of many disciplines to reveal more

clearly the nature of their interpretations to envision the ways in which their messages can play to different audiences and to better understand the relationship between knowledge art politics and entertainment The book documents a variety of cases in which the Smithsonian has brokered culture for the American public a planned exhibit on Jerusalem had to balance both Israeli and Palestinian agendas debates over the 1996 Olympic Arts Festival presented differing visions of the American South and the National Air and Space Museum's controversial display of the Enola Gay prompted the Smithsonian to re examine the role of national museums Arguing that cultural exhibits reflect a series of decisions about representing someone someplace and something Reflections of a Culture Broker discusses the ethical and technical problems faced by not only those who practice in a museum setting but also anyone charged with representing culture in a public forum Marketing and Strategy Neil G. Theodore Roosevelt Kathleen Dalton,2007-12-18 He inherited a sense of entitlement and obligation from his family yet eventually came to see his own class as suspect He was famously militaristic yet brokered peace between Russia and Japan He started out an archconservative yet came to champion progressive causes These contradictions are not evidence of vacillating weakness instead they were the product of a restless mind bend on a continuous quest for self improvement In Theodore Roosevelt historian Kathleen Dalton reveals a man with a personal and intellectual depth rarely seen in our public figures She shows how Roosevelt s struggle to overcome his frailties as a child helped to build his character and offers new insights into his family life uncovering the important role that Roosevelt's second wife Edith Carow played in the development of his political career She also shows how TR flirted with progressive reform and then finally committed himself to deep reform in the Bull Moose campaign of 1912 Incorporating the latest scholarship into a vigorous narrative Dalton reinterprets both the man and his times to create an illuminating portrait that will change the way we see this great man and the Progressive Era

The Marsh Queen Virginia Hartman,2023-04-25 Loni Mae Murrow's life in Washington DC is tidy if a trifle constrained Single and in her mid thirties she s a bird artist at the Smithsonian who spends her days at a desk making elaborate drawings of belted kingfishers and scrub jays and purple gallinules Then she s abruptly summoned back home to the wetlands of northern Florida where she grew up Her mother critical and difficult has grown frail and been resentfully

consigned to assisted living and her younger brother Phil juggling a job and a wife and two young children needs her help Loni may not be her mother s only child but there are some things only a daughter can do Although Florida with its suffocating heat and difficult memories is a place she thought she d managed to get away from Loni soon discovers that home is not so easily forgotten Going through her mother s things she finds a cryptic note from a woman whose name she doesn t recognize There are some things I have to tell you about Boyd's death it reads Boyd is her father a man who drowned in a boating accident out on the marsh when Loni was twelve and Phil just a baby The circumstances of his death long presumed a suicide turn out to be murkier than anyone thought Against her better judgment Loni finds herself drawn into a guest to discover the truth about how he died Against the mottled landscape of her youth she is led both away from and toward the truth about the past and its betrayals One by one the forces keeping her in Florida become stronger Someone begins to threaten her as she uncovers pieces of her father's story but she can't figure out who In the midst of this danger she struggles to reconnect with her mother through the remnants of their past and to reconcile with her brother and his pushy provincial wife And she fights an attraction to a man who encourages her to stay in the South even as she determines to return to her job in Washington At last moved to avenge the wrongs done to her family Loni has to decide whether to join the violence or end it. and the City to Stanley the self driving car Using her proposed model of expert curation she synthesizes her findings into a more universal framework for undertanding the curatorial methods associated with computer technology and reflects on what it means to be a curator in a postdigital world Collecting and Exhibiting Computer Based Technology offers a detailed analysis of curatorial practice in a relatively new field that is set to grow exponentially It will be useful reading for curators scholars and students alike Negotiating Race and Rights in the Museum Katy Bunning, 2020-11-29 Negotiating Race and Rights in the Museum traces the evolution of pervasive racial ideas and post race allusions over more than a century of museum thinking and practice Drawing on the illuminating history of the Smithsonian Institution this book offers an account of how museums have addressed and renegotiated wider calls for inclusion self definition and racial justice in ways that continually recentre and legitimise the White frame Charting the emergence of post race ideas in museums Bunning demonstrates how and why culturally specific approaches have been met with suspicion and derision by powerful museum stakeholders against the backdrop of a changing United States of America just as they have offered crucial vehicles for sectoral change This study of the evolution of racial ideas in response to Black empowerment highlights deeply entrenched forms of White supremacy that remain operative within the international museum sector today and serves to reinforce the urgent calls for the active disruption of racist ideas and the redesign of institutions Negotiating Race and Rights in the Museum will appeal to those working in the international fields of museum and heritage studies cultural studies and American studies and all who are interested in the production of racial ideas and White supremacy in the museum Library of Congress Information Bulletin, 2000
