Department of Health and Human Services. Secretary's Task Force on Youth Suicide, 1989      *Too Young to Die* Boon Hock Chia, 1999 One would imagine that the young would have every reason to want to live Yet under certain circumstances they have felt that they had no choice but to end their lives When that happens the sense of shock horror and disbelief is unimaginable This book investigates the factors that contribute to young suicides in Asia The author sheds light on this phenomenon by examining the coroners suicide case files and case files of patients treated in his psychiatric clinic as well as poignant letters written by young suicides      Federal Role in Addressing the Tragedy of Youth Suicide United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Juvenile Justice, 1985      *Life Span Perspectives of Suicide* A.A. Leenaars, 2013-06-29 In recent years a great deal of interest has been focused on suicide in the elderly and in the young However in line with modern trends in psychology sociology psychiatry anthropology and other human health fields interest has now shifted to suicide across the life span from childhood through adulthood to old age This book has been conceptualized within this developing tradition There are various ways in which life s timelines can be conceptualized Developmental theory we believe should be open ended This has widened and will continue to widen our understanding of many complicated human acts including suicide Though suicide is in many ways the same across the entire life span understanding the time lines in the suicidal process is imperative To do so however is we believe challenging In this volume we attempt to engage in the process of understanding suicide from a developmental perspective To do this we have been fortunate to obtain the cooperation of a highly competent group of contributors One interesting footnote to our list of authorities is that they represent suicidologists from across the life span a few who are at the beginning of their careers a large number in their middle years and a few who are in the Indian summer of their professional lives      **What Young People Want from Mental Health Services** Kerry Gibson, 2021-09-27 Young people experience one of the highest rates of mental health problems of any group but make the least use of the support available to them To reach young people in distress we need to understand what this digital generation want from mental health professionals and services Based on interviews with nearly 400 young people this book offers a vision of youth mental health issues and services through the eyes of young people themselves It offers professionals

important insights into the meaning of identity and agency for this generation and explores how these issues play out in young people's expectations of mental health support. It shows how despite young people's immersion in digital technology, genuine and trusting relationships remain a key ingredient in their priorities for support. It considers what access to mental health support means for a generation who have grown up with the immediacy enabled by digital technology. Young people's accounts also provide crucial insights into how they are using digital resources to manage their own mental health in ways often not appreciated by professionals who design internet interventions. *What Young People Want From Mental Health Services* offers clear guidance to counsellors, psychologists, psychiatrists, youth workers, social workers, service providers, and policymakers about how to work with youth and design their services so they are a better match for young people today. It contributes to a growing movement calling for a Youth Informed Approach to mental health to address the needs of young people.

*The Truth about Suicide* Donna Holland Barnes, Robert N. Golden, Fred L. Peterson, 2010. Provides facts and information for teens and young adults about issues related to suicide. Presented in an A to Z format accompanied by question and answer and fact versus legend segments.

*Suicide in Asia and the Near East* Lee Headley, 2023-07-28. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1983.

*Youth and Suicide in American Cinema* Alessandra Seggi, 2022-10-27. This book explores the depiction of suicide in American youth films from 1900 to 2019. Anchored in Sociology, this multidisciplinary study investigates the causes and consequences of suicide and uncovers the socio-cultural context for the development of youth film and suicide. While such cinematic portrayals seem to privilege external explanations of suicide versus internal or psychological ones, overall they are neither rich nor sensitive. Most are simplistic, limited, or at the very least unbalanced. At times they are flatly controversial. In light of this overall problematic depiction of suicide, this book offers a proactive approach to empower young audiences: a media literacy strategy to embrace while watching these films.

**Suicides in Prison** Alison Liebling, 2002-09-11. First published in 1992, Routledge is an imprint of Taylor & Francis, an informa company.
