Suicide The Ultimate Rejection A Psycho Social Study:

Suicide - The Ultimate Rejection? Pritchard,1995-10-01 This book looks at suicide in a cross cultural context showing how it is differently understood in different ethnic groups reflecting various degrees of stigma It argues for greater recognition of these key differences between cultures and ethnic groups and shows how important they can be to our understanding and intervention as well as considering the practical and moral issues raised by euthanasia

The Second Sexism David Benatar,2012-05-15 While the manifestation of sexism against women is widely acknowledged few people take seriously the idea that males are also the victims of many and quite serious forms of sex discrimination So unrecognized is this form of sexism that the mere mention of it will be laughable to some Yet women are typically exempt from military conscription even where men are forced into battle and risk injury emotional repercussions and death Males are more often victims of violent crime as well as of legalized violence such as corporal punishment Sexual assault of males is often taken less seriously Fathers are less likely to win custody of their children following divorce In this book philosophy professor David Benatar provides details of these and other examples of what he calls the second sexism He discusses what sexism is responds to the objections of those who would deny that there is a second sexism and shows how ignorance of or flippancy about

discrimination against males undermines the fight against sex discrimination more generally

Spinoza and Deep Ecology Eccy de Jonge, 2017-03-02 Spinoza and Deep Ecology explores the philosophical psychological and political assumptions that underpin a concern for nature offering specific suggestions how the domination of humans and nature may be overcome It is primarily intended as an introduction to the philosophy of ecology known as deep ecology and to the way Spinoza's philosophy has been put to this aim Only a self realisation along the lines of Spinoza's philosophy can afford a philosophy of care which is inclusive of humans and the non human world which recognises the need for civil laws and democratic politics for human flourishing In stark contrast to texts written by or on behalf of deep ecologists Spinoza and Deep Ecology is not afraid of criticising existing versions of deep ecology which fail to accept that human concerns are integral to environmental issues

Standards and Ethics for Counselling in Action Tim Bond, 2009-11-16 Since it first appeared in 1993 this highly acclaimed text has been the leading guide to counselling ethics Developed in line with the BACP's own guidelines its discussion of a wide range of ethical problems and advice on identifying and resolving these dilemmas has made it an invaluable resource In this fully revised and updated edition the author takes account of the changing legal professional and cultural context of counselling and considers recent developments in law concerning the implementation of the Human Rights Act and child protection that impact on counselling

Martyrdom in Modern Islam Meir Hatina,2014-04-28 The Islamic resurgence in modern times has received extensive treatment in scholarly literature Most of this literature however deals with the concept of jihad and disputes between radicals and their rivals over theological and political issues and far less with martyrdom and death Moreover studies that do address the issue of martyrdom focus mainly on suicide attacks a phenomenon of the late twentieth century and onward without sufficiently placing them within a historical perspective or using an integrative approach to illuminate their political social and symbolic features This book fills these lacunae by tracing the evolving Islamic perceptions of martyrdom its political and symbolic functions and its use of past legacies in both Sunni and Shi i milieus with comparative references to Judaism Christianity and other non Islamic domains Based on wide ranging primary sources along with historical and sociological literature the study provides an in depth analysis of modern Islamic martyrdom and its various interpretations while also evaluating the historical realities in which such interpretations were molded and debated

Durkheim's Suicide W.S.F. Pickering,Geoffrey Walford,2002-09-26 Durkheim s book on suicide first published in 1897 is widely regarded as a classic text and is essential reading for any student of Durkheim s thought and sociological method This book examines the continuing importance of Durkheim s methodology The wide ranging chapters cover such issues as the use of statistics explanation of suicide anomie and religion and the morality of suicide It will be of vital interest to any serious scholar of Durkheim s thought and to the sociologist looking for a fresh methodological perspective

Driven to Death Ariel Merari,2010-06-04 Suicide attacks are the definitive form of terrorism More than any other terrorist tactic they convey the ruthless willingness of present day terrorists to kill themselves for killing others Since September 11 2001 the number of suicide attacks around the world has risen dramatically causing on average far more fatalities per attack than other forms of terrorism What drives a person to kill himself for killing others in the name of a political or religious cause This book is the first to report a series of studies in which failed suicide bombers and organizers of suicide attacks were subjected to systematic clinical psychological interviews

and tests and were compared to non suicide terrorists This direct psychological examination enabled a first hand assessment of the personality characteristics and motivation of suicide bombers Additional interviews conducted by seasoned area specialists provided a comprehensive picture of the ways by which the suicide bombers were recruited prepared and dispatched to their planned death as well as how they felt and behaved along this road This information was supplemented by data derived from interviews with the families of suicide bombers who died carrying out their attacks The psychological makeup of suicide terrorists is put into context in other chapters of the book so as to provide an inclusive understanding of this phenomenon which takes into account public atmosphere and the ways in which terrorist groups influence the suicide candidates The book examines the characteristics of suicide terrorists in light of the most influential theories of suicide and offers a critical and innovative analysis of current explanations of suicide terrorism *International Journal of Child & Family Welfare* ,1997 *Queer Youth, Suicide and Self-Harm* E. McDermott,K. Roen,2016-04-08 Offering a new way of understanding the high self harm and suicide rates among sexual and gender minority youth this book prioritises the perspectives and experiences of queer young people including those who have experience of self harming and or feeling suicidal Presenting analysis based on research carried out with young people both online and face to face the authors offer a critical perspective on the role of norms namely developmental norms gender and sexuality norms and neoliberal norms in the production of self harming and suicidal youth *Queer Youth Suicide and Self Harm* is unique in the way it works at the intersection of class and sexuality and in its specific focus on transgender youth and the concept of embodied distress It also examines the implications of this research for self harm reduction and suicide prevention **Fatal Freedom** Thomas Szasz,2002-08-01 *Fatal Freedom* is an eloquent defense of every individual s right to choose F a voluntary death By maintaining statutes that determine that voluntary death is not legal Thomas Szasz believes that our society is forfeiting one of its basic freedoms and causing the psychiatric medical establishment to treat individuals in a manner that is disturbingly inhumane Society s penchant for defining behavior it terms objectionable as a dis ease has created a psychiatric establishment that exerts far too much influ ence over how and when we choose to die In a compelling argument that clearly and intelligently addresses one of the most significant ethical issues of our time Szasz compares suicide to other practices that historically began as sins became crimes and now arc seen as mental illnesses **The Psychology Companion** Bridget Adams,2009-02-24 The one stop guide to studying psychology at degree level This book provides a thorough introduction to psychology as a discipline and offers guidance on what to expect from the course An ideal study tool the Companion includes advice on study skills research methods career pathways and helpful psychology organisations **Suicidal Behavior in Muslim Majority Countries** S. M. Yasir Arafat,Mohsen Rezaeian,Murad M. Khan,2024-06-07 The book is about suicidal behavior in Muslim majority countries Islam is the second largest religion in the world There are also sizable Muslim populations in non Islamic countries Suicide is strongly prohibited in Islam and based on this tenet suicide and self harm

remain criminalized acts in many Islamic countries. When compared to the global estimates for suicide rates and to non-Islamic countries, Muslim majority countries have lower rates, indicating that Islamic faith and practice may be protective against suicidal behaviors. However, several factors such as criminal status stigma toward suicide, extreme dearth of research, low quality data, and under-reporting make it difficult to draw any firm conclusions. Hence, this book aims to do a deeper study of suicidal behaviors in Muslim majority countries, covering epidemiology, risk factors, and the challenges of suicide prevention in Muslim majority countries.
