Philippine Ethnography Shiro Saito, 2019-09-30 This volume is a comprehensive listing of reference sources for Philippine ethnology excluding physical anthropology and de emphasizing folklore and linguistics It is published as part of the East West Bibliographic Series This listing includes books journal articles mimeographed papers and official publications selected on the basis of the ratings of sixty two Philippine specialists Several titles were added to fill the need for material in certain areas Incomplete Conquests Stephanie Joy Mawson, 2023-07-15 In *Incomplete Conquests* Stephanie Joy Mawson uncovers the limitations of Spanish empire in the Philippines unearthing histories of resistance flight evasion conflict and warfare from across the breadth of the Philippine archipelago during the seventeenth century The Spanish colonization of the Philippines that began in 1565 has long been seen as heralding a new era of globalization drawing together a multiethnic world of merchants soldiers sailors and missionaries Colonists sent reports back to Madrid boasting of the extraordinary number of souls converted to Christianity and the number of people paying tribute to the Spanish Crown Such claims constructed an imagined imperial sovereignty and were not accompanied by effective consolidation of colonial control in many of the regions where conversion and tribute collection were imposed *Incomplete Conquests* foregrounds the experiences of indigenous Chinese and Moro communities and their responses to colonial agents weaving together stories that take into account the rich cultural and environmental diversity of this island world **Ilongot Headhunting, 1883-1974** Renato Rosaldo, 1980 This study a history of the kind of people who are supposed to have one challenges the fashionable view that so called primitives live in a timeless present The conventional wisdom that such societies are static is shown by the author to be an artifact of anthropological method By piecing together extended oral histories and written history records the author found that headhunting among the Ilongots of Northern Luzon Philippines was not an unchanging ancient custom but a cultural practice that has shifted dramatically over the course of the past century Headhunting stopped resumed and stopped again its victims at various periods were fellow Ilongots Japanese soldiers and lowland Christian Filipinos it took place as surprise attack planned vendetta or distant raid against strangers Placing headhunting in its social cultural and historical contexts requires a novel sense of how to use biography recorded history and narrative in the analysis of small scale non literate local communities This study combines historical and ethnographic method and documents the inherent orchestration of structure events time and consciousness The book is illustrated with 34 photographs *Changing Identities in Modern Southeast Asia* David J. Banks, 2011-06-03 No detailed description available for *Changing Identities in Modern Southeast Asia* **Saint Louis Quarterly** , 1969 *Raiding, Trading, and Feasting* Laura L. Junker, 1999-09-01 As early as the first millennium A D the Philippine archipelago formed the easternmost edge of a vast network of Chinese

Southeast Asian Indian and Arab traders Items procured through maritime trade became key symbols of social prestige and political power for the Philippine chiefly elite **Raiding Trading and Feasting** presents the first comprehensive analysis of how participation in this trade related to broader changes in the political economy of these Philippine island societies By combining archaeological evidence with historical sources Laura Junker is able to offer a more nuanced examination of the nature and evolution of Philippine maritime trading chiefdoms Most importantly she demonstrates that it is the dynamic interplay between investment in the maritime luxury goods trade and other evolving aspects of local political economies rather than foreign contacts that led to the cyclical coalescence of larger and more complex chiefdoms at various times in Philippine history A broad spectrum of historical and ethnographic sources ranging from tenth century Chinese tributary trade records to turn of the century accounts of chiefly feasts of merit highlights both the diversity and commonality in evolving chiefly economic strategies within the larger political landscape of the archipelago The political ascendance of individual polities the emergence of more complex forms of social ranking and long term changes in chiefly economies are materially documented through a synthesis of archaeological research at sites dating from the Metal Age late first millennium B C to the colonial period The author draws on her archaeological fieldwork in the Tanjay River basin to investigate the long term dynamics of chiefly political economy in a single region Reaching beyond the Philippine archipelago this study contributes to the larger anthropological debate concerning ecological and cultural factors that shape political economy in chiefdoms and early states It attempts to address the question of why Philippine polities like early historic kingdoms elsewhere in Southeast Asia have a segmentary political structure in which political leaders are dependent on prestige goods exchanges personal charisma and ritual pageantry to maintain highly personalized power bases **Raiding Trading and Feasting** is a volume of impressive scholarship and substantial scope unmatched in the anthropological and historical literature It will be welcomed by Pacific and Asian historians and anthropologists and those interested in the theoretical issues of chiefdoms

Disaster Archipelago Maria Carinnes P. Alejandria, Will Smith, 2019-11-20 Images of the devastation wreaked by typhoons flooding earthquakes and drought in the Philippines circulate globally as an important part of disaster discourses This collection seeks to move beyond these simplistic representations of calamity by bringing together a group of Filipino and international scholars from diverse disciplinary backgrounds to grapple with the complex nature of disaster in the Philippines Firmly grounded in the relationship between disaster and place the volume s contributors confront the challenges of the Philippine nation s internal heterogeneity of language ethnicity and class In doing so this book seeks to engage the specificities of place amid diversity and explores two broad but interrelating avenues of investigation through case studies drawn from across the archipelago How can environmental extremity in the Philippines help us understand disasters How can disasters help us understand the Philippines

The End of the Peasantry in Southeast Asia R.E. Elson,2016-01-13 This book analyses the changing context and conditions of production and livelihood amongst Southeast Asia s peasants since the beginning of the nineteenth century It argues that with demographic growth and the nineteenth century development of great global markets based on small scale production the size and economic significance of peasantries throughout the region was magnified However such changes brought with them new forces stronger states more regular legal systems a revolution in communications intensive commercialisation which themselves worked to undermine the foundations of peasant society and eventually to transform peasants into farmers workers and citizens **Isabelo's Archive** Resil B. Mojares,2017-11-01 Isabelo s Archive reenacts El Folk Lore Filipino 1889 Isabelo de los Reyes s eccentric but groundbreaking attempt to build an archive of popular knowledge in the Philippines Inspired by Isabelo s ghostly project this collection mixes essays vignettes extracts and notes on Philippine history and culture Blending the literary and the academic wondrously diverse in its range it has many gems to offer the reader **Treading Through** Basilio Esteban S. Villaruz,2006 Treading Through is the first reader in Philippine dance observed through forty five years of viewing reviewing and doing It is one observer s understanding of what where and how dance and who makes it and why we dance **Counter-Hispanization in the Colonial Philippines** John Blanco,2025-10-01 In Counter Hispanization in the Colonial Philippines the author analyzes the literature and politics of spiritual conquest in order to demonstrate how it reflected the contribution of religious ministers to a protracted period of social anomie throughout the mission provinces between the 16th 18th centuries By tracking the prose of spiritual conquest

with the history of the mission in official documents religious correspondence and public controversies the author shows how contrary to the general consensus in Philippine historiography the literature and pastoral politics of spiritual conquest reinforced the frontier character of the religious provinces outside Manila in the Americas as well as the Philippines by supplanting the absence of law in the name of supplementing or completing it This frontier character accounts for the modern reinvention of native custom as well as the birth of literature and theater in the Tagalog vernacular
