Gaston Maspero

Sun In Horus:

Yahweh and the Sun J. Glen Taylor,1993-11-01 This challenging provocative book argues that there was in ancient Israel a considerable degree of overlap between the worship of the sun and of Yahweh even that Yahweh was worshipped as the sun in some contexts As an object created not by humankind but by God himself the sun as an object of veneration lay outside the bounds of the second commandment and was considered by many to be an appropriate icon of Yahweh of Hosts Through its investigation of solar Yahwism this book offers fresh insight into several passages e g Genesis 1 32 23 33 Joshua 10 12 14 1 Kings 8 12 Ezekiel 8 16 18 Psalms 19 104 and archaeological data regarding the orientations of Yawistic temples the lmlk jar handles horse figurines and the Taanach cult stand The book argues that the struggle between Yahweh and other deities in ancient Israel took place within the context of the development of Yahwism itself **Sun Moon** Olivia

Thompson,AI,2025-03-06 Sun Moon explores the pervasive influence of the sun and moon on global spirituality and religious traditions By examining their symbolic meanings across cultures the book reveals how these celestial bodies have shaped creation myths rituals and belief systems One intriguing aspect is the astronomical alignment of religious sites reflecting ancient civilizations deep connection to the cosmos The book emphasizes that the sun and moon symbolize fundamental human experiences like life and death offering a lens for understanding diverse religious expressions The book unfolds in three sections beginning with the astronomical properties of the sun and moon and their earliest cultural representations It then examines their roles in various religious traditions including indigenous religions Hinduism Christianity and Islam drawing from scriptures myths and historical research Finally the book synthesizes these findings presenting a comparative analysis of solar and lunar symbolism and their relevance in contemporary spirituality This approach provides readers with a comprehensive understanding of religious symbolism and cultural history *The Worship of Nature* James George

Universal Knowledge William Harrison De Puy,1881 Kansas City Review of Science and Industry ,1880 The Kansas City Review of Science and Industry ,1880 The Dawn of Astronomy J. Norman Lockyer,2006-04-28 A pioneer in the fields of astrophysics and astro archeology J Norman Lockyer believed that ancient Egyptian monuments were constructed in strict relation to the stars In this celebrated study he explores the relationship between astronomy and architecture in the age of the pharaohs Lockyer addresses one of the many points already extensively investigated by Egyptologists the chronology of the kings of Egypt All experts are in accord regarding the identity of the first monarch but they cannot agree upon the dates of his reign within a thousand years The author contends that by applying a knowledge of astronomy to the actual site orientation of the region s pyramids and temples accurate dating can be achieved In order to accomplish this Lockyer had to determine the level of the ancient Egyptian ideas of astronomy Some of his inferences have been invalidated by subsequent

scholarship but many of his other conclusions stand firm and continue to provide sensational leads into contemporary understanding of archaic astronomy **The Dawn of Astronomy** Sir Norman Lockyer,1894 *The Dawn of Civilization* Gaston Maspero,1901 **Proceedings of the American Philosophical Society Held at Philadelphia for Promoting Useful Knowledge** ,1881 **Chasing Immortality in World Religions** Deborah M. Coulter-Harris,2016-07-25 Humans have been chasing immortality since the beginning of history seeking answers to sickness and aging death and the afterlife and questioning the human condition Analyzing ideas from ancient Sumer Egypt Greece and India as well as the Abrahamic religions of Judaism Christianity and Islam this study explores how early religious models influenced later beliefs about immortality the afterlife the human soul resurrection and reward and punishment The author highlights shared teachings among the most influential religions and philosophies concluding that humankind has not substantially changed its conceptions of immortality in 6 000 years This continuity of belief may be due to chromosomal memory and cultural inheritance or may represent a fundamental way of conceptualizing the afterlife to cope with mortality Instructors considering this book for use in a course may request an examination copy here **People's Cyclopaedia of Universal Knowledge** ,1882 **101 Myths of the Bible** Gary Greenberg,2002-09-01 In his startling book Gary Greenberg exposes the reality behind the greatest story ever told Learn about the Egyptian myths and ancient folklore that survive in one of history s most sacred texts and discover how King David s bodyguard not David killed Goliath Noah s Ark did not land on Mount Ararat Samson did not pull down a Philistine temple There are at least two versions of the Ten Commandments The walls of Jericho were destroyed 300 years before Joshua arrived there Sodom and Gomorrah were mythical cities that never existed The story of Esther had nothing to do with the Jews of Persia And much much more 101 Myths of the Bible provides a new dimension of biblical studies for believers historians and anyone who has ever wondered about the facts behind the legends By looking deeper into history Greenberg shows that the true story makes the Bible more interesting than ever imagined **Egypt's Place in Universal History** Christian Karl Josias Freiherr von Bunsen,1867 *Egypt's Place in Universal History* C.
