Philpott, 2013-08-30 Winner of the Western Writers of America 2014 Spur Award for Best Western Nonfiction Contemporary Mention the Colorado high country today and vacation imagery springs immediately to mind mountain scenery camping hiking skiing and world renowned resorts like Aspen and Vail But not so long ago the high country was isolated and little visited Vacationland tells the story of the region's dramatic transformation in the decades after World War II when a loose coalition of tourist boosters fashioned alluring images of nature in the high country and a multitude of local state and federal actors built the infrastructure for high volume tourism ski mountains stocked trout streams motels resort villages and highway improvements that culminated in an entirely new corridor through the Rockies Interstate 70 Vacationland is more than just the tale of one tourist region It is a case study of how the consumerism of the postwar years rearranged landscapes and revolutionized American environmental attitudes Postwar tourists pioneered new ways of relating to nature forging surprisingly strong personal connections to their landscapes of leisure and in many cases reinventing their lifestyles and identities to make vacationland their permanent home They sparked not just a population boom in popular tourist destinations like Colorado but also a new kind of environmental politics as they demanded protection for the aesthetic and recreational qualities of place that promoters had sold them Those demands energized the American environmental movement but also gave it blind spots that still plague it today Peopled with colorful characters richly evocative of the Rocky Mountain landscape Vacationland forces us to consider how profoundly tourism changed Colorado and America and to grapple with both the potential and the problems of our familiar ways of relating to environment nature and place      *Golden Dreams* Kevin Starr, 2011-09-09 A narrative tour de force that combines wide ranging scholarship with captivating prose Kevin Starr's acclaimed multi volume *Americans and the California Dream* is an unparalleled work of cultural history In this new volume Starr covers the crucial postwar period 1950 to 1963 when the California we know today first burst into prominence In a powerful blend of telling events colorful personalities and insightful analyses he brilliantly illuminates the dominant economic social and cultural forces in California in these pivotal years      **Sunset** ,1915      National Parks ,1999-01 The flagship publication of the National Parks Conservation Association National Parks Magazine circ 340 000 fosters an appreciation of the natural and historic treasures found in the national parks educates readers about the need to preserve those resources and illustrates how member contributions drive our organization's park protection efforts National Parks Magazine uses images and language to convey our country's history and natural landscapes from Acadia to Zion from Denali to the Everglades and the 387 other park units in between      *The Sun Never Sets* L.W. W. Meyers, Margaret Beck Pritchard, 2012-12-01 Completed in 1747 Mark Catesby s *Natural History of Carolina Florida and the Bahama Islands* was the first major illustrated publication on the flora and fauna of Britain s American colonies Together with his *Hortus Britanno Americanus* 1763 which detailed plant species that might be transplanted successfully to British soil Catesby s *Natural History* exerted an important though often

overlooked influence on the development of art natural history and scientific observation in the eighteenth century Inspired by a major traveling exhibition of Catesby s watercolor drawings from the Royal Library Windsor Castle this collection of interdisciplinary essays considers Catesby s endeavors as a naturalist artist scientific explorer experimental horticulturist ornamental gardener and early environmental thinker in terms of the interests held by the various overlapping communities in which he functioned particularly as those interests related to the British colonial enterprise The contributors are David R Brigham Joyce E Chaplin Mark Laird Amy R W Meyers Therese O Malley and Margaret Beck Pritchard **Harry E. Burke and John M. Miller, Pioneers in Western Forest Entomology** Boyd E. Wickman,2005 This history was compiled from the memoirs diaries and other personal documents of the two forest entomologists in charge of the first forest insect laboratories on the west coast It traces the lives of the two pioneers from 1902 to 1952 as they pursued their careers in the USDA Bureau of Entomology Division of Forest Insect Investigations Cooperative bark beetle control projects with the USDA Forest Service Park Service and private timber owners guided much of their early activities Later when the laboratories were located on university campuses cooperative research was undertaken with Forest Service Research Stations The focus shifted to more basic research and particularly studies on the silvicultural management of bark beetle populations *Stanford* ,1999 **All Indians Do Not Live in Teepees (or Casinos)** Catherine C. Robbins,2011-10-01 Both a tribute to the unique experiences of individual Native Americans and a celebration of the values that draw American Indians together *All Indians Do Not Live in Teepees or Casinos* explores contemporary Native life Based on personal experience and grounded in journalism this story begins with the repatriation of ancestral remains to the Pueblo peoples of New Mexico The 1999 return to Pecos of the skeletal remains of two thousand bodies excavated during an archaeological expedition nearly a century earlier was the largest repatriation in American history In a united purposeful and energizing quest the Pecos and Jemez Indians brought their ancestors home This event along with subsequent repatriations has accelerated similar momentum across much of Native America In *All Indians Do Not Live in Teepees or Casinos* Catherine C Robbins traces this restorative effect in areas such as economic development urbanization the arts science and health care Through dozens of interviews Robbins draws out the voices of Indian people some well known and many at the grassroots level working quietly to advance their communities These voices speak against the background of the narrative s historical context The result is a rich account of Native American life in contemporary America revealing not a monolithic Indian experience of teepees or casinos but rather a mosaic of diverse peoples existing on a continuum that marks both their distinctions and their shared realities

*Vanishing America* Miles A. Powell,2016-11-14 Miles Powell explores how early conservationists became convinced that the vitality of America s white races depended on preserving the wilderness Some conservationists embraced scientific racism eugenics and restrictive immigration laws but these activists also laid the groundwork for the many successes of the modern environmental movement **The Sunset** ,1921
