image of spirits and spiritual activities on earth In a break from the theme and returning to Dornach Rudolf Steiner reports on his recent visit to England and Wales where he attended an educational conference in Ilkley a Summer School in Penmaenmawr and a school for the disadvantaged in the East End of London Steiner speaks of the particular atmosphere he experienced in West Yorkshire and North Wales where remnants of Druid spirituality live in the surroundings The latter theme emerges strongly in the next lectures which examine the Druid priest s sun initiation and perception of moon spirits The Druids investigated the secrets of the universe influencing both social and religious life Steiner also describes the mythic being of Woden who signified the birth of intellectuality and the subsequent fear of death which he asserts can be healed by the Mystery of Golgotha In the final section Rudolf Steiner discusses The past present and future development of the human mind Again he references the importance of Druid culture noting that the ground plans of the stone circles in Penmaenmawr are similar to that of the first Goetheanum He also points to the crucial roles of the ancient Mysteries and Christ s deed in human development Outlook and Independent ,1898
