From the first intrepid weekend warriors to strap on their snow skis and lash a length of rope to the back of their buddies' boats through the fabulous resort town waterski shows of the 1950s and 60s, this comprehensive history features a wealth of evocative period photography in both color and black and white. Special focus is given to the development of equipment from the turn of the century to the 1960s, the rise of competitive skiing and waterskiing as entertainment. *Skiing Sun Valley* John W. Lundin, 2020-11-09 Union Pacific Railroad's Averell Harriman had a bold vision to restore rail passenger traffic decimated by the Great Depression, create ski tourism in Idaho's remote Wood River Valley. A \$15 million investment opened Sun Valley in December 1936 with a lavish lodge, luxury shopping, Austrian ski instructors, and extensive backcountry skiing. Prestigious tournaments featured the world's best skiers. Chairlifts invented by Union Pacific engineers serviced skiers quickly and comfortably. Ski instructor and filmmaker Otto Lang recalled that seemingly overnight it became a magnet for the beautiful people, a meeting place for movie stars and moguls, chairmen and captains of industry, Greek shipping tycoons and peripatetic playboys and playgirls of the international social set. After World War II and Harriman's departure, Union Pacific's willingness to pay the \$500,000 yearly subsidy waned. Bill Janss purchased it in 1964 and reimagined it as a year-round resort but lacked the capital for growth. Sinclair Oil owners Earl and Carol Holding acquired it in 1977, revitalizing it into a premier resort with international status. Award-winning ski historian John W. Lundin celebrates America's first destination ski resort using unpublished Union Pacific documents, oral histories, contemporaneous accounts, and more than 150 historic images. **From Skisport to Skiing** E. John B. Allen, 1993 The first full-length study of skiing in the United States, this book traces the history of the sport from its utilitarian origins to its advent as a purely recreational and competitive activity. During the mid-1800s, inhabitants of frontier mining communities in the Sierra and Rocky mountains used skis for many practical reasons, including mail and supply delivery, hunting, and railroad repair. In some towns, skis were so common that, according to one California newspaper, the ladies did nearly all their shopping and visiting on them. But it was Norwegian immigrants in the Midwest, clinging to their homeland traditions, who first organized the skisport. Through the founding of local clubs and the National Ski Association, this ethnic group dominated American skiing until the 1930s. At this time, a wave of German immigrants infused America with the ethos of what we today call Alpine skiing. This type of skiing became increasingly popular, especially in the East, among wealthy collegians committed to the romantic pursuit of the strenuous life. Ski clubs proliferated in towns and on college campuses, and specialized resorts cropped up from New England to California. At the same time, skiing became mechanized with tows and lifts, and the blossoming equipment and fashion industries made a business of the sport. On the eve of World War II, as the book concludes, its story, all the elements were in place for the explosion in recreational and competitive skiing that erupted after 1945. **BOOK**
