

The cover features a detailed woodcut illustration from Vesalius's work, showing anatomical dissections. A large figure at the top left shows a dissected torso, while other figures below show various parts of the body being examined. The background is filled with numerous smaller anatomical details. Overlaid on the right side is a black rectangular box containing the title and author information in white serif font.

Intelligent Textiles and Clothing H. Mattila, 2006-07-28 The use of intelligent textiles in clothing is an exciting new field with wide ranging applications. *Intelligent textiles and clothing* summarises some of the main types of intelligent textiles and their uses. Part one of the book reviews phase change materials (PCM) and their role in such areas as thermal regulation and ways they can be integrated into outdoor and other types of clothing. The second part of the book discusses shape memory materials (SMM) and their applications in medical textiles, clothing and composite materials. Part three deals with chromic colour change and conductive materials and their use in such areas as sensors within clothing. The final part of the book looks at current and potential applications including work wear and medical applications. With its distinguished editor and international team of contributors, *Intelligent textiles and clothing* is an essential guide for textile manufacturers in such areas as specialist clothing, for example protective sports and outdoor clothing, as well as medical textiles. Summarises the main types of intelligent textiles and their uses. Reviews phase change materials and their role in clothing. Discusses shape memory materials and their applications.

Textiles for Cold Weather Apparel J. T. Williams, 2009-09-29 Cold weather can be a potential hazard to human health, adversely affecting physiological functions, work performance and wellbeing. Designing suitable apparel for cold environments is therefore a complex task. *Textiles for cold weather apparel* reviews the principles, materials and requirements of cold weather apparel and will stimulate ideas for future innovation and improved end performance. The first part of the book covers the fundamental scientific issues and types of materials suitable for cold weather clothing. Topics include how to achieve comfort and thermoregulation in cold weather clothing, as well as the use of coated and laminated fabrics. It also discusses design and ergonomic aspects such as designing for ventilation. Part two discusses ways of evaluating cold weather clothing, including standards and legislation governing cold weather clothing and laboratory assessments. Part three concludes with applications, including cold weather apparel for the military and footwear for cold weather conditions. With an array of international contributors, this book is a valuable reference for producers, manufacturers, retailers and all those wishing to improve and understand developments in cold weather apparel. Reviews the principles, materials and requirements of cold weather apparel. Discusses design and ergonomic aspects, including ventilation and insulation. Examines methods used to evaluate cold weather clothing, as well as standards and legislation in practice.

Silver in Healthcare Alan B. G. Lansdown, 2010 Silver in healthcare has many different facets and since the early concepts of microbiology of the 1880s has been developed from usage in surgical clips, staples, foil wound dressings and surgical implants to the widespread and clinically effective antiseptic wound dressings, sutures, catheters, bone and dental

implants and cardiovascular devices of today From the dawn of human civilisation silver has had a role of water purification and even now has a role in hospital water systems for control of MRSA and legionnaires disease Biotechnological advances in recent years have extended the antimicrobial properties of silver into production of hygiene textiles and use in domestic products Important advances have been made in understanding mechanisms of antimicrobial action of silver the central importance of ionisation patterns in the presence of body fluids and secretion and the genetical and molecular profiles of silver resistance This publication is a comprehensive account of the history of silver in medicine its clinical benefits and wide advantages as a broad spectrum antimicrobial agent It is clear from the extensive array of publications in recognised and unofficial press that many misconceptions and misleading conceptions have been perpetuated leading to errors in evaluation of the safety of the metal in occupational domestic and therapeutic situations The book is unique in that it is the only comprehensive presentation of the toxicology of silver and it identifies the major misconceptions in the safety of silver and interpretation of argyria and argyrosis as central features of silver toxicity In this book Dr Lansdown reviews the literature from a clinical and experimental viewpoint with the benefit of his many years research on silver and experience gained in working with clinicians healthcare product manufacturers and microbiologists There is also discussion in the book on the relevance of antimicrobial resistance to silver and deficiencies in present day clinical practice in not evaluating incidences of resistance on a routine basis The subject matter is presented in a readable fashion and includes reference to use of the metal in such practices as acupuncture and treatment of tropical diseases as practised in some parts of the world each of which is accompanied by special clinical risk It is also a collation of current views on the use and efficacy of silver as a broad spectrum antibiotic The chapters which deal specifically with toxicological aspects of silver in clinical occupational and environmental issues are central to the book s value The book is aimed at clinicians research scientists and product manufacturers and will provide ideas for new research and academic endeavour It is also essential reading for research students with an interest in metal toxicity and its management in mammalian tissues
