From these six, the most gripping (Barnett) has pulled in the genre—the metaphor, although not the words, about King David, Solomon, Ruth, Isaac, and Jacob. It is still a good volume with two or three additional stories in French or in Italian. For book-lovers, Barnett's story is the best; the focus is the French language and the two main characters talk in French or about the French in English, and I am being forced, like a language student, to use the book for practice while reading the author's story of a woman caught in the author's story of a woman caught in the author's story. The language, and especially the French, is superb. (The book is published by E. J. Brill, New York.)

Apple's terms state that users have no guarantee that third-party developers had a quality or safety review that was required by the U.S. Government or that Apple even was aware of any review given solely by itself or solely outside of the company. It should not be surprising that the government has strong reasons for a good reason to require such a review.
