Reference Guide to Russian Literature Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public **2016** Günter Berghaus, 2016-05-24 Volume 6 2016 is an open issue with an emphasis on Nordic countries Denmark Finland Lithuania Estonia Iceland Four essays focus on Russia two on music other contributions are concerned with Egypt USA and Korea Furthermore there are sections on Futurist archives Futurism in caricatures and Futurism in fiction **Linguistic Turns, 1890-1950** Ken Hirschkop, 2019-04-04 Linguistic Turns rewrites the intellectual and cultural history of early twentieth century Europe In chapters that study the work of Saussure Russell Wittgenstein Bakhtin Benjamin Cassirer Shklovskii the Russian Futurists Ogden and Richards Sorel Gramsci and others it shows how European intellectuals came to invest language with extraordinary force at a time when the social and political order of the continent was itself in question By examining linguistic turns in concert rather than in isolation the volume changes the way we see them no longer simply as moves in individual disciplines but as elements of a larger constellation held together by common concerns and anxieties In a series of detailed readings the volume reveals how each linguistic turn invested language as such with powers that could redeem not just individual disciplines but Europe itself It shows how in the hands of different writers language becomes a model of social and political order a tool guaranteeing analytical precision a vehicle of dynamic change a storehouse of mythical collective energy a template for civil society and an image of justice itself By detailing the force linguistic turns attribute to language and the way in which they contrast language as such with actual language the volume dissects the investments made in words and sentences and the visions behind them The constellation of linguistic turns is explored as an intellectual event in its own right and as the pursuit of social theory by other means **Translating Velimir Khlebnikov's Early Poetry** Kirsten Lodge, 1998 **Voiceless Vanguard** Sara Pankenier Weld, 2014-06-30 Winner 2015 International Research Society in Children's Literature IRSCL Book Award Voiceless Vanguard The Infantile Aesthetic of the Russian Avant Garde offers a new approach to the Russian avant garde It argues that central writers artists and theorists of the avant garde self consciously used an infantile aesthetic as inspired by children's art language perspective and logic to accomplish the artistic renewal they were seeking in literature theory and art It treats the influence of children's drawings on the Neo Primitivist art of Mikhail Larionov the role of children's language in the Cubo Futurist poetics of Aleksei Kruchenykh the role of the naive perspective in the Formalist theory of Viktor Shklovsky and the place of children's logic and lore in Daniil Kharms's absurdist writings for children and adults This interdisciplinary and cultural study not only illuminates a rich period in Russian culture but also offers implications for modernism in a wider Western context where similar principles apply **Russian and American Poetry of Experiment** Vladimir Feshchenko, 2023-07-17 An experiment with language Is it an object cultivated in poetic laboratories where entry is

locked for mere mortals And what do language scholars think about it Specialists in language and literature studies interested in linguistic innovation and experimental poetry will find answers to these questions in Vladimir Feshchenko's book *The study investigates various strategies of radical linguistic creativity in Russian and American experimental writing of the 20th century and explores cases of contemporary language oriented and trans language poetry* It is a comparative examination of two national avant garde cultures but also a juxtaposition of the relationships that Russian and American avant garde poetics had with linguistic ideas of their times The monograph may serve as a wonderful introduction to the entire field of linguistic poetics of the avant garde

Slavic Review ,1997 **The Futurism of Vasilisk Gnedov** Crispin Brooks,2000 The Russian Avant-garde ,2003 *Humanities Index* ,1999 Zaum Gerald Janecek,1996 This is the most comprehensive treatment of a significant episode of the historical avant garde period to which many refer but with little concrete background According to Charlotte Douglas Russian and Slavic Studies NYU Zaum is an encyclopedic account of zaum or beyonsense the most distinctive feature of Russian avant garde art and poetry early in the 20th century Janecek has mined a myriad of arcane and inaccessible sources gathered the entire historical record in one place and made it readable and comprehensible His account of zaum theory and practice will be indispensable for anyone interested in modern poetry and art Certainly it will become a standard text for all students of Russian Futurism
