Granger Korff,2009-04-01 A fast moving action packed account of Granger Korff's two years service during 1980-81 with 1 Parachute Battalion at the height of the South African bush war in South West Africa Namibia and Angola. Apart from the standard counterinsurgency activities of Fireforce operations ambushing and patrols to contact and destroy SWAPO guerrillas he was involved in several massive South African Defence Force SADF conventional cross border operations such as Protea Daisy and Carnation into Angola to take on FAPLA Angolan MPLA troops and their Cuban and Soviet allies. Having grown up as an East Rand rebel street fighter Korff's military career is marred with controversy. He is always in trouble going AWOL on the eve of battle in order to get to the front facing a court martial for beating up and reducing to tears a sergeant major in front of the troops fist fighting with Drug Squad agents arrested at gunpoint after the grueling seven week 700km Recce selection endurance march are but some of the colorful anecdotes that lace this account of service in the SADF.

Mahler took the symphony perhaps the most tradition bound genre in Western music and opened it to the widest span of human experience. He introduced themes of love nature the chasmic depth of midnight making peace with death facing rebirth seeking one's creator and being at one with God. Arved Ashby offers the non specialist a general introduction into Mahler's seemingly unbounded energy to investigate the elements that make each work an experiential adventure one that has redefined the symphonic genre in new ways. In addition to the standard nine symphonies Ashby discusses Das Lied von der Erde the three most commonly heard song sets the Lieder eines fahrenden Gesellen Kindertotenlieder and Rückert Lieder and the unfinished Tenth Symphony in Cooke's edition. Experiencing Mahler is a far reaching and often provocative search for meaning in the music of one of the most beloved composers of all time.

War and Death in the Music of George Crumb Abigail Shupe,2022-09-02 This book studies George Crumb's *The Winds of Destiny* 2004 and *Black Angels* 1970 as artifacts of collective memory and cultural trauma. It situates these two pieces in Crumb's output and unpacks the complex methodologies needed to understand these pieces as contributions and challenges to traditional narratives of the Civil War and the Vietnam War. *The Winds of Destiny* is shown to be a critical commentary on

the legacy of American wars and militarism both concepts crucial to American identity The Winds of Destiny also acts as an ironic war memorial as a means of critiquing such concepts Black Angels has long been associated with the Vietnam War This book shows how this association began and how it endures through connections to iconic Vietnam War media including films and books Together these analyses show the legacy of trauma in American collective memory which is in a continuous crisis Crumb's musical critiques point to a need to resist conventional narratives and to begin to heal trauma on a collective level This book will be of interest to students of contemporary American music American studies and memory studies It benefits readers by newly situating Crumb's music within these three fields of study
