James Frederick McCurdy

Sumer Babylon History Of Civilization:

A History of Sumer and Akkad Leonard William King, 1923 An account is here given of the dawn of civilization in Mesopotamia and of the early city states which were formed from time to time in the lands of Sumer and Akkad the two great divisions into which Babylonia was at that period divided Preface *The Greatest Civilizations of Ancient Mesopotamia* Charles River Charles River Editors, 2017-01-26 Includes pictures Includes primary sources from ancient records about their cultures and battles Includes bibliographies for further reading Includes a table of contents Although the Sumerians continue to get second or even third billing compared to the Babylonians and Assyrians perhaps because they never built an empire as great as the Assyrians or established a city as enduring and great as Babylon they were the people who provided the template of civilization that all later Mesopotamians built upon The Sumerians are credited with being the first people to invent writing libraries cities and schools in Mesopotamia Ziskind 1972 34 and many would argue that they were the first people to create and do those things anywhere in world For a people so great it is unfortunate that their accomplishments and contributions not only to Mesopotamian civilization but to civilization in general largely go unnoticed by the majority of the public Perhaps the Sumerians were victims of their own success they gradually entered the historical record established a fine civilization and then slowly submerged into the cultural patchwork of their surroundings Among the many cities of the ancient world Rome and Athens may come to mind first but the city of Babylon in the land of Mesopotamia was already an ancient venerated city when the others were still inconsequential settlements Today Babylon has become a byword for greed excess and licentiousness mostly due to its mention in the Bible but a closer examination reveals that Babylon was so much more and even perhaps the most important city in the ancient world Ancient Babylon was home to great dynasties that produced some of the world's most influential leaders most notably Hammurabi and Nebuchadnezzar and these rulers invoked their wills on the entire ancient Near East and have been remembered as both progressive and cruel all at the same time Babylon was also the seat of culture in ancient Mesopotamia and the place where scholars made amazing scientific advances that would not be eclipsed for several centuries An examination of ancient Babylon demonstrates that it was truly the first great city in the ancient world Compared to some of their contemporaries including the Egyptians Assyrians and Babylonians the Hittites were somewhat distant both culturally and geographically The Hittites were an Indo European speaking in an ocean of Afro Asiatic and Semitic groups their homeland was to the north of Mesopotamia and it contained no major river like the Nile Tigris or Euphrates Rivers The Hittite empire was also far less enduring than its neighbors as it only existed from about 1800 1200 BCE van de Mieroop 2007 156 which was considerably shorter than most of the other major kingdoms of the Near East With that said the influence of the Hittites on the politics economy and overall situation of the ancient Near East cannot be understated the Hittites were a force to be reckoned with while they existed Although the Biblical accounts of the Assyrians are among the most interesting and are often corroborated with other historical sources

the Assyrians were much more than just the enemies of the Israelites and brutal thugs A historical survey of ancient Assyrian culture reveals that although they were the supreme warriors of their time they were also excellent merchants diplomats and highly literate people who recorded their history and religious rituals and ideology in great detail The Assyrians like their other neighbors in Mesopotamia were literate and developed their own dialect of the Akkadian language that they used to write tens of thousands of documents in the cuneiform script This book looks at all four of these highly influential empires Along with pictures depicting important people places and events you will learn about the greatest civilizations of Ancient Mesopotamia like never before
